# UNITED STATES PATENT AND TRADEMARK OFFICE Commissioner of Patents Washington, D.C. 20231

April 2003

Dear User:

Thank you for using the Electronic Filing System (EFS) and its submission tool, ePAVE 5.1, to file your patent application electronically.

The USPTO initiated the development of EFS to provide a means for applicants or their representatives to submit patent applications and related documents to the USPTO using the Internet. The use of the Electronic Filing System supports the USPTO strategic goal to integrate patent business practices with information technology to bring about effective use of electronic government as part of conducting patent business.

This user manual provides detailed instructions for using the ePAVE submission program, and also provides guidance including the system requirements, business context of use, and support available for the product. ePAVE is the software application that you use to bundle and transmit your documents to the USPTO.

### PART 1: A QUICK GUIDE TO EPAVE 5.1

• Step 1 – Obtain ePAVE 5.1 software. The software can be downloaded from <a href="https://www.uspto.gov">www.uspto.gov</a> or provided on CD from the Patent Electronic Business Center by calling toll-free 1-866-217-9197. The ePAVE software has a low level Public Key Infrastructure (PKI) certificate built in. This certificate may be used to file new utility and provisional applications. To file subsequent submissions, obtain a customer number and high level PKI digital certificate from the USPTO.

Full details are listed at the Electronic Business Center (EBC) site within the main web site of the USPTO at: www.uspto.gov/ebc.

• **Step 2** - Install ePAVE 5.1.

Detailed installation instructions are listed in the overview, in Part 2 of this manual.

• Step 3 – Launch ePAVE 5.1.

Launch ePAVE by double-clicking the ePAVE icon from their desktop or by selecting ePAVE from the *Start* menu under *Programs*.

• Step 4 – Begin to use ePAVE.

Immediately after launching ePAVE, users will see the ePAVE splash screen. Click on *Next* at the bottom of the screen to proceed.

ePAVE splash screen

• Step 5 – Ensure that the most current version of ePAVE is running.

A dialogue box will appear, asking: "Would you like to verify if you are running the most current version of ePAVE software?"

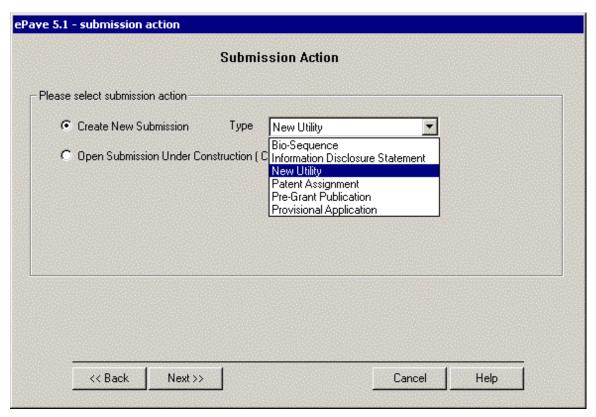

Version Verification dialogue box

Select **Yes** to verify now. Select **No** to verify later.

• Step 6 – Begin creating a submission.

After verifying the version, the *Submission Action* screen is displayed. Users have the option of creating a new submission or opening a submission that has been started, but not completed. (A submission that has been started but not completed is listed as a Submission under Construction.)

Submission Action screen

• **Step 7** – Choose one of the six submission types.

The drop-down menu of submission types is displayed in the Submission action screen. The list displays an alphabetic list of the six submission types that can be filed in ePAVE. Users must choose from the following six submission types: bio-sequence listing, information disclosure statement, new utility, patent assignment, pre-grant publication, and provisional application.

NOTE: The new utility is the default submission type.

• Step 8 – Complete data entry and create files appropriately for each submission type.

Each submission type has its own set of instructions that are available as separate documents or as one large manual. In order to fully understand the intricacies of each submission type, users are encouraged to review the manuals before using ePAVE. The manuals are available for download and are listed at the Electronic Business Center (EBC) site within the main web site of the USPTO at: <a href="https://www.uspto.gov/ebc">www.uspto.gov/ebc</a>.

• Step 9 – Submit to USPTO and obtain acknowledgement receipt.

Using either the built-in low level PKI certificate or the USPTO provided high-level PKI certificate, a secure encrypted session is established with the USPTO server. When the completed submission is received by USPTO an acknowledgement receipt containing the application number, confirmation number, time and date of receipt, and additional information is returned. This acknowledgement receipt will serve as proof positive that what was submitted was what USPTO received.

### PART 2: AN OVERVIEW OF EPAVE 5.1

#### **SECTION 1: Introduction**

The following lists information about system requirements and limitations, and provides detailed installation instructions for installing and using the Electronic Filing System (EFS) and its submission tool, ePAVE 5.1, to file patent applications electronically.

### **SECTION 2: System Requirements**

**Processor:** 266 MHz or higher Pentium Processor 266 MHz or higher (or similar AMD

Processor)

Memory: 128 MB RAM.

Screen Display: 1024 x 768 or higher

**Browser:** Microsoft Internet Explorer 5.0 Service Pack 3 or Microsoft Internet Explorer 5.5 Service Pack 2 with msxml upgraded to msxml 3.0 Service Pack 2. For more information on the msxml upgrade see:

http://msdn.microsoft.com/downloads/default.asp?url=/downloads/sample.asp?url=/msdn-files/027/001/772/msdncompositedoc.xml

**Tiff Viewer Plug-In:** AlternaTIFF v1.3.5 or higher for IE5.0, or AlternaTIFF v1.4 or higher for IE5.5 and higher.

Free Hard Disk Space: 25 Megabytes is required for the ePAVE application alone.

**Modem:** Internet connection at 56 Kbps or faster

**Operating System:** Microsoft Windows 98SE, Windows ME, Windows 2000 with Service Pack 2 or later, Windows NT 4.0 with Service Pack 6 or later or Windows XP with Service Pack 1

**Applications:** Microsoft Word 97, Word 2000, or Word XP including Office Assistant

Graphics Package for TIFF image formatting

**Printer Driver (s)** must be up to date

**Scanner:** Any scanner capable of producing black and white TIFF images at 300 dpi with CCITT Group 4 compression

#### **SECTION 3: Submission Restrictions**

Any patent applications submitted to the USPTO through EFS will include one or more electronic files. The following limitations apply to the files that can be submitted in a single submission package.

**Applications submitted electronically over the Internet**: The total submission size must be 100 MB or less. If the total submission size exceeds 100 MB, the submission should be copied to a CD-ROM or CD-R and that CD delivered to USPTO.

#### Any electronic submission is subject to the following limitations:

A new utility or provisional submission may include no more than 5 assignment coversheets.

An information disclosure statement may cite at most 50 U.S. patents and 50 U.S. published application citations.

A subsequently filed assignment submission may include a maximum of 15 cover sheets. Each cover sheet must reference at least one tiff image.

Images must be included as tiff image files in the following format: Black and white, 300 dpi, CCITT Group 4 compression or uncompressed, maximum size of 8 ½ by 11 inches.

#### **SECTION 4: Detailed Installation Instructions**

#### Obtaining ePAVE: CD-ROMs or the USPTO Web Site

Users can download ePAVE 5.1 from the Electronic Business Center (EBC) site within the main web site of the USPTO at: <a href="https://www.uspto.gov/ebc">www.uspto.gov/ebc</a>. The program is also provided on a CD-ROM supplied by the USPTO. Contact the Patent Electronic Business Center toll-free at 1-866-217-9197 to obtain a CD.

#### **Installing from a CD-ROM:**

When a CD-ROM is used to install ePAVE, the installation program will automatically launch when the Autorun feature is enabled on the user's computer.

If the installation program does not automatically launch, locate the installation file setup.exe on the CD-ROM and double-click on the setup file.

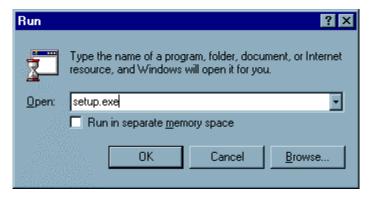

#### Installing from the download:

If ePAVE is downloaded from the USPTO website, the user should locate the installation file, setup.exe on the user's computer and install the file by double-clicking on the setup file.

#### Running ePAVE Installation from the Start menu

Using either a CD-ROM or the USPTO web site, users can run the ePAVE installation by completing the following steps.

• Select *Run* from *Start* menu.

Run screen

• Use the Browse button to locate the folder where the setup program "setup.exe" was saved to the user's computer or the drive and folder where it is located on the CD-ROM CD). Or, users can type the full path and file name instead of using the browse button.

Run file selection

- Highlight the file name setup.exe and select **OK**.
- The ePAVE Installshield launches and guides the user through the installation.

• It is recommended that users install the default configuration. To do so, the *Next* button must be clicked for all choices after choosing *Yes* to the license agreement.

#### Installing New Versions of ePAVE

If an earlier version of ePAVE is present it should be uninstalled prior to installing ePAVE 5.1.

ePAVE Installation screen

• Choose the *Remove* radio button and select the *Next* option. If the user chooses to install all the components of ePAVE, all default settings must be left in place.

Users can also uninstall ePAVE by completing the following steps.

- Select *Settings* from the *Start* menu.
- Select *Control Panel* from the *Settings* drop-down submenu.
- Double-click the *Add/Remove Programs* icon within the *Control Panel* submenu.
- Highlight *ePAVE* from the list of programs that appears in the lower half of the *Add/Remove Programs* window.
- Select the *Add/Remove* button.

When an application is about to be uninstalled, a warning about removing shared files may appear. The message "Are you sure you want to remove the shared file?" will appear. If this warning appears, select either *No* or *No to All* to ensure that other applications continue to function properly.

NOTE: If users remove files that are shared by other programs during uninstallation, their system may not function properly. Leaving shared files on the computer will not harm the system.

After completing the uninstallation of the older version of ePAVE, install ePAVE 5.1.

#### **Special Installation Circumstances**

#### **Networked Computers**

ePAVE can be used with Internet connections on a network and with networked machines. In order to install ePAVE or some of its components, users will be required to have local administrator privileges. If users are unsure if they have these privileges, it is best to contact Information Technology staff. The installation program will offer a prompt during the installation process to indicate that local administrator privileges are required for installation.

Administrator Privilege dialogue box

Although it is possible to use ePAVE in a network environment, users should carefully consider its effect on file management.

In a networked environment, application files created in ePAVE must reside in network storage that is mapped to all machines that are working with ePAVE using the same naming convention. All files should be in a dedicated folder for two reasons: to allow common access to the files from any PC on the network and to allow EFS to locate, attach, and bundle the files within the application during the final assembly of the submission into a package.

EFS stores all files from a single application together, based on their pathname. Thus, once the files have been stored, their location should not be changed.

#### **Multiple Computers**

The installation of ePAVE is subject to license agreements that set forth the terms to allow installation on one or more computers.

In order for ePAVE to upload an electronic submission properly, a digital certificate file must be transferred. Users may obtain a high level digital certificates in a two-step process by requesting reference information from the USPTO and creating the certificates with the USPTO's Direct Security software after receiving access codes. A low-level digital certificate is built in to ePAVE and may be used for new utility and provisional submissions only.

There is no need to reinstall USPTO Direct on multiple machines because users may transfer their profile and the digital certificate file to a computer that will be used to file the patent application submission.

#### What is ePAVE? What is EFS?

EFS is designed around a common submission engine that presents data collection screens to the user to collect patent application information and create electronic patent application forms in eXtensible Markup Language (XML). The submission engine is a desktop software program called EFS electronic Packaging and Validation Engine (ePAVE). In addition to providing electronic forms, ePAVE allows the user to attach a tagged, structured specification document that includes links to applicable figure image files. Other patent application documents, such as a declaration or a power of attorney, may attached as scanned single-page tiff image files or included as XML documents.

EFS electronic Packaging and Validation Engine (ePAVE) desktop software enables patent applicants and appointed practitioners to conduct real time electronic filing of select new utility and provisional patent applications. EFS also allows user to file four types of subsequent filings over the Internet. These subsequent file types are select pregrant publication submissions; information disclosure statements for pending applications, assignment documents for previously filed applications and patents, and submission of amino acid or nucleotide sequence listings required during prosecution of a pending biotechnology patent application.

#### Who may use EFS?

The USPTO authorizes select individuals to use EFS to file patent applications electronically. These authorized individuals include inventors, attorneys of record or otherwise registered, agents of record or otherwise registered, assignees of record of the entire interest, and assignees of record of an undivided part interest. For more information see 37 C.F.R. 1.33(b).

#### **Application Types Allowed**

EFS allows submission of six filing types: new utility and provisional patent applications, pre-grant publication submissions, information disclosure statements and

biosequence listings for pending patent applications, and assignment recordation documents for previously filed patent applications and patents.

To use EFS software to submit pre-grant publication filings, please refer to pre-grant publication regulations 37 CFR, Sections 1.211-1.221, for a full description of the process and legal requirements.

A biosequence listing in computer readable form (CRF) may be included with a new utility or provisional application. Alternatively, if you have a pending utility patent application that requires a nucleotide or amino acid sequence submission, you may file the biosequence listing as a separate follow-on filing. The submission software accepts ASCII Sequence Listing files created by a sequence listing authoring tool, PatentIn (as well as accommodating ASCII Sequence listing files created by other standard methods or editors). Refer to 37 CFR 1.824. The sequence listing shall be submitted in American Standard Code for Information Interchange (ASCII) text. No other formats are accepted.

For new utility, provisional, and pre-grant publication submissions, the user must first create a specification document as an Extensible Mark-up Language (XML) tagged electronic document. The user may then use ePAVE submission software to attach and send the application specification with any figures to USPTO along with other patent application forms and files.

Using ePAVE submission software users may: author XML documents such as fee transmittal or application data sheet; attach electronic documents and image files in specified formats; and validate the completeness of the submission based on patent business rules. The ePAVE program automatically bundles, compresses, and digitally signs the submission package once the applicant or appointed practitioner enters an electronic signature and digital certificate authentication information. Using the digital certificate, the software automatically establishes a Secure Socket Layer encrypted session with the USPTO server and transmits the package to the USPTO. An acknowledgement receipt is displayed in real time at the filer's desktop after the submission package is received and validated at the USPTO without error.

### **SECTION 5: Key Steps in the Electronic Filing Process**

The following procedure outlines the steps that must be completed in order for you to file a patent application electronically via EFS.

Step 1: Install ePAVE

Install the ePAVE tool.

#### Step 2: Obtain a PKI digital certificate

According to 35 U.S.C. Section 122 USPTO must maintain patent applications in confidence. In order to comply with this law, the USPTO distributes software that supports secure communication among the USPTO, applicants, and practitioners.

As a result, the USPTO has implemented several electronic commerce projects that promote secure communications, including instituting rules to protect applicants when they file patent applications electronically and providing electronic access to pending patent applications to authorized persons via the Patent Application Information Retrieval (PAIR) system. USPTO has implemented public key infrastructure technology to provide the security of these systems. A PKI digital certificate is necessary to ensure the security of the electronic transmission of patent applications and is used to establish a Secure Socket Layer connection with the USPTO server for secure transmission of patent application information.

When filing a new utility or provisional patent application, users may use the low-level digital certificate that is built in to ePAVE. The low-level digital certificate is compatible with the public key infrastructure that is implemented by the USPTO and allows secure communications between applicants and the USPTO. Low-level digital certificates may only be used to file new utility and provisional submissions.

High-level digital certificates issued by the USPTO require an approval process. USPTO will also provide a version of Entrust Direct security software that is custom-made for the USPTO and is used to create the high-level digital certificate. Entrust Direct is compatible with the public key infrastructure that is implemented by the USPTO and enables secure communications among individual applicants, practitioners, and the USPTO.

Note: Obtaining a high level PKI certificate is recommended. It can be used to access application information in private PAIR and allows all six filing types to be submitted.

To find out how to obtain a PKI digital certificate, please contact the Electronic Business Center (EBC) for patents.

#### Step 3: Format all files

Any patent application that is submitted to the USPTO via EFS must meet certain formatting requirements.

#### File Names

File names are limited to 25 characters and must be alphanumeric. The hyphen and period characters can be used in file names. The USPTO recommends using the 8.3 filenaming convention when naming files that will be used with ePAVE. This convention allows for file name to contain up to eight characters for the name of the file itself and

three characters for the file extension and requires both components to be separated by a period. Here is an example of a file name that complies with the 8.3 file-naming convention; newfile1 doc

Allowable characters in file and folder names include letters, numbers, hyphens (-), and periods (.). Special characters should not be included in file names, such as ampersands (&), commas (,), number signs (#), quotation marks ("), and spaces (). It is imperative that special characters not be used because they will cause errors that may affect the transmission of the patent application.

In naming the ePAVE folder that contains the submission files, the folder name must be different than the names of any other files or figures that are included in the submission.

#### **Images**

Since images are an integral part of patent applications, they must meet strict requirements before being submitted as part of a patent application. The USPTO has established the following requirements for images that apply to any patent application that is filed electronically.

All images must be scanned or converted into TIFF images and comply with the following format: a resolution of 300x300 dpi, black and white only, compressed with the CCITT Group 4 Compression or uncompressed, and a maximum size of 8 ½ by 11 inches. These formatting requirements apply to the following types of images:

Inline graphics (including complex chemical structures, math equations, tables, and custom characters)

Drawings (figures) – It is recommended that one Figure of drawing be included in each tiff file.

Declaration forms (These may also be submitted as XML files if they are created in ePAVE.)

Assignment documents

Small entity statements

Power of Attorney forms (These may also be submitted as XML files if they are created in ePAVE.)

These requirements for TIFF images will satisfy all of the quality requirements set forth in 37 C.F.R. 1.84. When the USPTO prints patent applications that were submitted through EFS onto 8 1/2" x 11" paper, the margins will be as follows: top-1 inch; left-1 inch; right- 3/4 inch; bottom- 3/4 inch. These margins satisfy 37 C.F.R. 1.84(g).

## **SECTION 6: Using ePAVE 5.1**

#### Introduction

The ePAVE submission engine is used to create a patent application (also referred to as a package), view and print it, validate it, and send it electronically to the USPTO.

#### **Updating EFS Submission Program (ePAVE)**

The USPTO will periodically release new versions of the ePAVE software. When this occurs, users will need to update the ePAVE software. In order to ensure that the most current version of ePAVE is running, ePAVE automatically provides the option to check the version each time ePAVE is launched.

**EPAVE Version Verification** 

Select *Yes* to automatically launch an Internet connection and connect to the USPTO server. If the installed version on your machine is not the most recent, check the USPTO website at <a href="http://www.uspto.gov/ebc/efs/index.html">http://www.uspto.gov/ebc/efs/index.html</a> to determine if a new version is available.

If you receive the following error message after clicking **Yes**, your version of ePAVE is not the most current. Select **OK** on the Version error screen and go to the EFS website at www.uspto.gov to download the latest ePAVE software. You may also obtain updated versions of the five EFS User Manuals from this site.

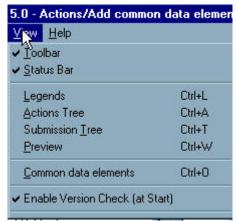

Version Error screen

Select *No* on the Version Verification screen to launch ePAVE software without checking for the most recent version. After selecting *No*, a new submission may be created. After beginning the upload process, the ePAVE software will automatically check the version. If the installed version is not the most recent, check the USPTO website at <a href="http://www.uspto.gov/ebc/efs/index.html">http://www.uspto.gov/ebc/efs/index.html</a> to determine if a new version is available.

#### Disable or Re-enable Version Checking at Startup

If you want to disable ePAVE's automatic version checking on startup, you may deselect it from the *View* menu. Click the *Enable Version Check (at Start)* to toggle it on and off. The check mark indicates that version checking at startup is active, and is not shown once you disable this feature.

Disable or Re-enable Version Checking

NOTE: You cannot disable the version check at upload feature. When ePAVE performs this check, it will only inform you whether or not your ePAVE version is the most current.

#### The ePAVE User Interface

The ePAVE interface includes the following components—menus, a toolbar, a data entry screen and navigation screens. The menus allow you to perform various functions, including opening and closing documents, saving and printing documents, validating your submission, and sending it to the USPTO. The toolbar provides buttons that allow you to perform various ePAVE tasks without using the menus. The screens contain the data fields where you enter your submission information that is sent to the USPTO and allow you to navigate through your submission according to the actions that you wish to perform, or moving from form to form.

#### The ePAVE Toolbar

The ePAVE toolbar is shown below:

ePAVE Toolbar

The following provides a list of the toolbar icons and their names, and also provides a description of the function of each icon.

# USP10 Electronic Filing System

- **New Icon.** Use this icon to begin a new EFS submission.
- Open Icon. Use this icon to open an existing EFS submission file that you previously saved. Locate the existing submission folder in the directory path.
- Save Icon. Use this icon to save the EFS submission information you have authored so far.
- Cut Icon. Use this icon to remove text from the selected text field.
- Copy Icon. Use this icon to copy the selected text.
- Paste Icon. Use this icon to paste text to the selected text field.
- **Print Icon.** Use this icon to print the information on the active screen.
- -Help Icon. Use this icon to access help information for using ePAVE.
- Toggle Legend Icon. Use this icon to display or hide the tree legend.

#### **Navigating Through ePAVE**

Users can navigate through ePAVE in a number of ways.

- A user may navigate by using a mouse and interacting with the graphical screen display provided and entering text from the keyboard or a user may navigate through the screens using keystrokes only.
- A user may move from screen to screen using the *Back* and *Next* buttons provided in the ePAVE wizard.
- A user may navigate through the screens by selecting a particular action from the *Actions tree*.
- A user may navigate to particular screens using the *Forms tree*.

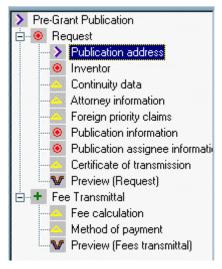

New users may wish to walk through all the screens in ePAVE and would benefit from seeing all the screens. That user would likely use the ePAVE wizard navigation by using the *Next* and *Back* buttons to move through the application.

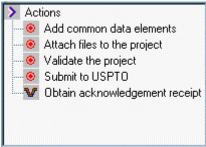

Back and Next buttons in the ePAVE wizard

More advanced users may wish to include information on specific screens only and would benefit from navigating via the *Forms* tree. Selecting a specific screen from the forms tree will display that screen and allow data entry into that screen.

Forms tree

Users may navigate by function using the *Actions tree* to perform a particular function, such as attaching or removing a file from the *Attach Files to Project* screen by selecting Attach files to the project from the *Actions* tree.

Actions tree

#### **Keyboard and Mouse Navigation**

Once a screen is displayed, a user can move through the data fields by using the **TAB** key on the keyboard or by clicking in each field with the mouse. Users can also move

# USP10 Electronic Filing System

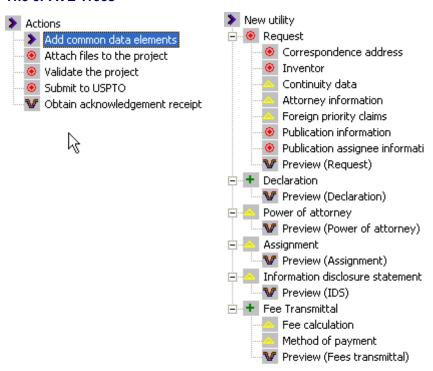

backwards through the fields by simultaneously pressing the **SHIFT** and **TAB** keys on the keyboard. Selections of radio buttons on the screens can be done using a mouse or by toggling through the choices using the up and down arrow keys. Check boxes can be checked or unchecked by clicking with the mouse or by using the space bar. Buttons on the screen can be pressed by clicking on them with the mouse or by using the space bar. For example, when a user wishes to move to the next screen, the user can select the *Next* button and press the space bar.

#### The ePAVE Trees

The left side of each ePAVE screen includes the *Actions tree* with the *Forms tree* displayed beneath it.

#### Actions Tree

Selecting one of the items in the *Action Tree* activates a desired action. The Actions tree will indicate which action is being completed by displaying the purple arrow icon .

Enter common data elements will launch the *Add Common Data Elements* screen where data common to many of the ePAVE-generated forms may be entered.

Attach files to the project will launch the *Attach Files to Project* screen where files may be attached to and removed from the submission. The contents of the submission may also be viewed in the Attach files to the project screen.

**Validate the project** will launch the *Validate the Project* screen where the correctness and completeness of the submission can be determined. Error and warning messages displayed on this screen will help users ensure that a complete and correct data set is being sent to USPTO.

**Submit to USPTO** will launch the *Submit to USPTO* screen where comments about the submission may be entered and where electronic and digital signatures are provided. The *Send* button on this screen may be selected to begin transmission of the filing to the USPTO server.

**Obtain Acknowledgement Receipt** will launch the *Acknowledgement Receipt* view and allow printing of the acknowledgement receipt returned by USPTO after submission has occurred.

#### Forms Tree

A user can navigate to particular screens in ePAVE using the Forms Tree.

XML forms are created in ePAVE by entering data on one or more screens. The screens associated with each form are listed in the *Forms Tree*. Each of the ePAVE screens is represented by a symbol and text branches in the *Forms Tree*. A user can access the different screens by selecting the branch that corresponds to the desired screen. The specific Forms tree and screens that are available is dependent upon the type of submission being filed.

Once a screen is displayed, a user can move through the data fields by using the **TAB** key on the keyboard or by clicking in each field with the mouse. Users can also move backwards through the fields by simultaneously pressing the **SHIFT** and **TAB** keys on the keyboard. Selections of radio buttons can be on the screens can be done using a mouse or by toggling through the choices using the up and down arrow keys. Check boxes can be checked or unchecked by clicking with the mouse or by using the space bar. Buttons on the screen can be pressed by clicking on them with the mouse or by using the space bar. For example, when a user wishes to move to the next screen, the user can select the next button and press the space bar.

The ePAVE data entry screens must collect a minimum amount of information to ensure that the electronic patent application filing is complete and valid for examination and subsequent publication. All mandatory fields or sections in ePAVE are identified by bold type, while optional fields or sections are shown in regular type.

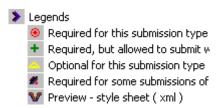

#### Help button

The Help button in the lower right corner of each screen will bring up screen-specific help to assist a user in filling out patent application documents.

#### Legend

The meaning of the symbols in the trees can be displayed by viewing the Legend.

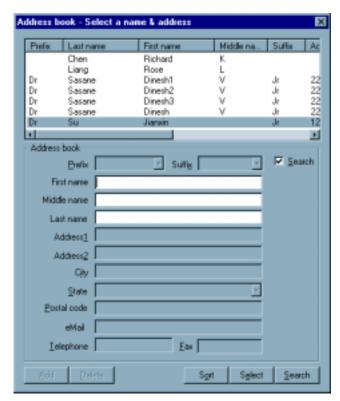

ePAVE legend

The information entered in the fields on each screen is automatically tagged as XML (extensible markup language) output. The screens and fields are described in detail in the following sections: Creating a Bio-sequence listing, Creating a Provisional, Creating an Information Disclosure Statement, Creating New Utility, Creating a Pre-Grant Publication, or Creating an Assignment.

#### **Using the Address Book**

Address book

To facilitate the reuse of previously keyed data, ePAVE 5.1 offers an Address Book feature. In instances where name and address information must be entered, the user can reuse previously keyed information by clicking on the Ab key, <a href="#"><< Ab</a> to the right of the data fields. A user can enter a few letters of one of the names and select the **Search** key.

The Address book will search for that name and offer matching or nearly matching names in the data field. A user can highlight the desired name, double-click on it or select the **Selec**t key, and the name and/or address information for that address book entry will automatically be populated into the ePAVE screen.

Highlighting a particular field at the top of the data field and selecting the Sort key can sort entries in the address book.

Name and address information can be added to the address book by entering the desired data and selecting the **Add** key.

To delete an entry, highlight the name and address in the data field and select the **Delete** key.

#### Saving a Submission

A user can save ePAVE submission documents at any time. Saving preserves your patent application data so that you can change or print it at a later date. Use one of the following procedures to save the electronic files:

Click the *Save* icon on the toolbar. This immediately saves entered data.

OR

Go to the **File** menu and select **Save** 

The submission contents will be saved in the submission folder with a file extension of epv.

#### Printing in ePAVE

When application data sheet, fee transmittal, biosequence transmittal, information disclosure statement and assignment recordation forms are open, those forms will print when you select *Preview* from the *Forms* Tree or by selecting the *Print* icon, or by selecting *Print* from the *File* menu.

Forms may also be printed by highlighting the form in the *Attach Files to Project* screen and selecting *View*. Print the form by right clicking and selecting *Print* or by using the keyboard shortcut Ctrl + P.

Filing Large Submissions Using Compact Discs

If a user attempts to file a submission that exceeds the EFS system limit of 100 Megabytes, ePAVE generates an error message and advises the user to submit the large application on a compact disc (CD or CD-R). Submissions larger than 100MB cannot be submitted via the Internet. If a large biotechnology sequence listing, table, or computer program listing is causing the large application size, these items may be submitted with the application according to the requirements of 37 C.F.R. 1.52 (e) with the large section on CD and the rest in paper. However, regardless of the cause of the large size of the submission, EFS can be used to file the application on CD. The process requires a compact disc recorder, and can only be used for submissions that fit on a single compact disc.

#### Before Saving to CD

Before saving the zip files and sending the CD to USPTO, verify that all image files are compressed. If the application figure images are not compressed, the images can be compressed using various image editors. Use the following procedure to compress application figure images:

- Remove the specification XML document from the attachments in ePAVE.
- Open one of the images in an image-viewing tool.
- Specify the following settings for the image:

File type: TIFF

Color: Black & White

**Compression:** CCITT Group 4 **Resolution:** 300x300 dpi

- Save the image.
- If the tiff image problem is caused by a declaration, power of attorney, or assignment tiff image file, do the following:
- Open the image in an image-viewing tool.
- Specify the following settings for the image:

File type: TIFF

Color: Black & White

**Compression**: CCITT Group 4 **Resolution**: 300x300 dpi

• Save the image.

Saving a Submission on CD

If the submission is still larger than 100 MB after compressing image files, use the following procedure to submit packages larger that 100MB on CD:

- Print out the Transmittal Form from the Attach Files to Project screen by selecting the file including the suffix pkgdata.
- Copy the submission folder that contains the entire application from the workstation to compact disc-recordable (CD-R) media.
- Wrap the CD in a hard case within a padded protective mailing envelope, and attach a copy of the transmittal form. Enclose a cover letter explaining that the submission contains an application that was too large to be submitted via the Internet. See 37 CFR 1.52 for more information on providing compact discs to USPTO.
- Hand carry or mail the CD-R and a copy of the paper transmittal form and cover letter to the USPTO. The submission may also be deposited with the US Postal Service under the Express Mail procedures of 37 CFR § 1.10.
- Keep a copy of the CD and transmittal form for your records.

Once the USPTO receives the CD in the mailroom, the date of receipt is recorded and the submission is uploaded to the EFS server, where the files are unzipped. The application files will then be processed as EFS submissions and an acknowledgement receipt will be mailed.

If the files contain large tables, sequence listings or computer program listings, the USPTO has the option of not printing the large files, but rather burning two CD-Rs of such data and treating them under the CD practice of 37 CFR 1.52(e). If the file is an amino acid/ nucleotide sequence listing, then one additional copy of such a sequence listing will be created and sent to Scientific and Technology Information Center as the Computer Readable Form of the sequence listing. In any case, one CD is placed in the file, and one is put in the CD repository.

USPTO Office of Initial Patent Examination's Electronic Application Review Office processes payment by credit card or deposit account in the same manner as an on-line submission. The files provided on CD are signed, so the patent application data is protected during mailing and any storage time at the USPTO.

#### **SECTION 7: Contact Information**

**Check the User Guide -** This manual provides all of the information needed to use the ePAVE software. Please check the table of contents to locate information.

**Check the Online Help** - Click *Help* in the ePAVE application to review information about the version of ePAVE that you are using.

**Check the EFS web site -** The EFS web site provides links to additional EFS support resources. The EFS web site is accessible at www.USPTO.gov/ebc/efs/index.html.

**Contact the EBC Customer Service Center -** 703-305-3028 or toll free at 1-866-217-9197 from 6 AM to 12 midnight Monday to Friday.

Contact the USPTO Patent Assistance Center (PAC) - 1-800-PTO-9199, efs@uspto.gov.

### **PROVISIONAL APPLICATIONS**

### **Provisional Applications: At a Glance**

In order to file a provisional patent application electronically in ePAVE, users must complete certain steps.

Although users may navigate freely throughout ePAVE without following any set order, the steps and screens listed below follow the natural progression of ePAVE, as if the user were to select the *Next* button at the bottom of each screen.

STEP 1: Install and Launch ePAVE

STEP 2: Create a Submission Action and Submission Folder

**STEP 3:** Provide Data Within the Provisional Application Module

- Add Common Data Elements Screen
- Correspondence Address Screen
- Inventor Screen
- Attorney Information Screen
- Declaration Screen
- Power of Attorney Screen
- Assignments Screen
- Fee Calculation Screen
- Method of Payment Screen
- Attach Files to the Project Screen
- Validate the Project Screen
- Submit to the USPTO Screen
- Obtain Acknowledgment Receipt Screen

#### Install and Launch ePAVE

- Obtain ePAVE 5.1 by downloading the software from uspto.gov or by calling the patents Electronic Business Center toll-free at 1-866-217-9197 and requesting the software on a compact disk.
- Install ePAVE 5.1. This will create an icon on the desktop.
- Highlight the ePAVE 5.1 icon on the desktop and launch the program by either double-clicking on the icon or pressing *Enter* on the keyboard. This will launch the ePAVE 5.1 splash screen.

ePAVE splash screen

• Select the *Next* button to proceed. Select the *Cancel* button to exit ePAVE. Select the *Help* button for information about ePAVE.

Selecting the *Next* button will launch a dialogue box that allows verification that the most current version of ePAVE is running.

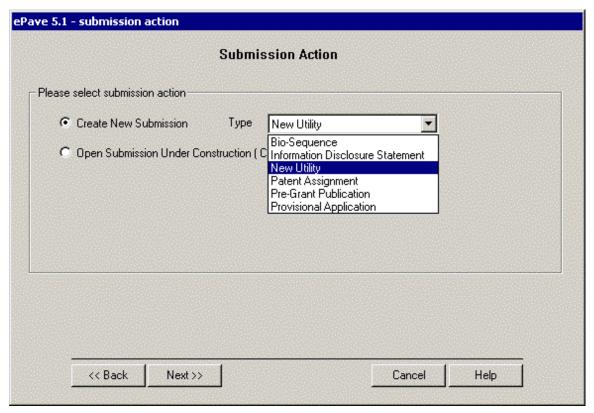

Version Verification dialogue box

- Select *Yes* to verify that the most current version of ePAVE is running.
- Select *No* to verify later.

# Create a Submission Action and Submission Folder Submission Action Screen

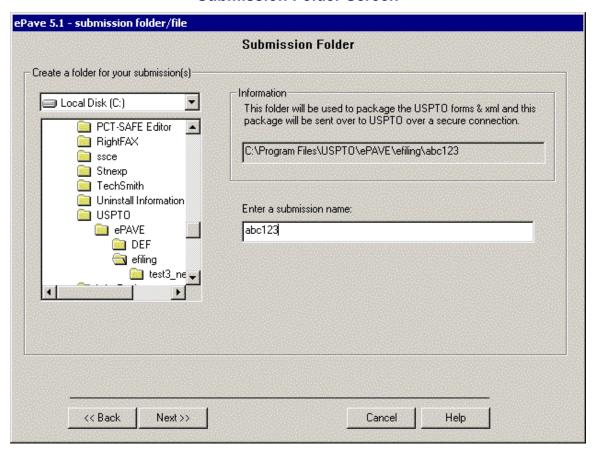

Submission Action screen

- To create a new submission, select the *Create New Submission* button and choose *Provisional* as the submission type from the drop-down menu.
- Select the *Back* button to return to the ePAVE splash screen. Select the *Next* button to proceed to the *Submission Folder* screen. Select the *Cancel* button to exit ePAVE. Select the *Help* button for information about the screen.

#### Submission Folder Screen

Submission Folder screen

If *Next* was selected, the *Submission Folder* screen will be displayed.

- From the drop-down menu select a location for the new submission folder.
- *Enter a submission name* Enter a name to identify the submission. This will create a submission folder that will store all related documents for the submission. Enter any alphanumeric name without any spaces or special characters. ePAVE will automatically save files for this submission in the submission folder.

Note: Users are required to create a submission folder before working on a submission.

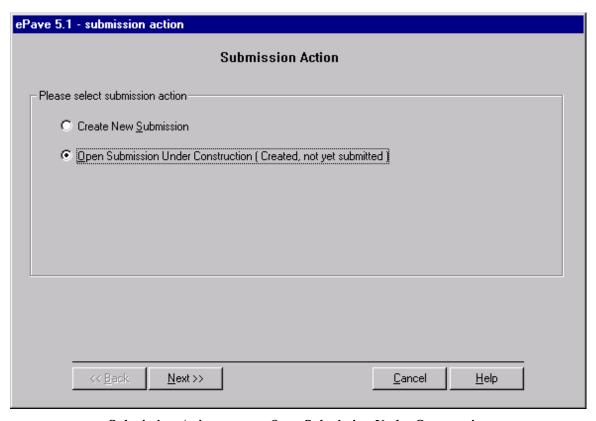

The submission folder may include documents formatted in XML (eXtensible Markup Language) language, such as the transmittal document, a fee document, an application data document, and an assignment document. This folder may also contain an error log that includes validation errors (if applicable), the acknowledgment receipt (as proof that the USPTO received the submission), and a zip file that contains the entire submission being sent to the USPTO.

After the first submission folder is created, the *Next* time a new submission folder is created in ePAVE, the directory will default to the directory where the previous submission folder is located.

• Select the *Back* button to return to the *Submission Action* screen. Select the *Next* button to proceed to the *Add Common Data Elements* screen. Select the *Cancel* button to exit ePAVE. Select the *Help* button for information about the screen.

#### **Submission Action Screen**

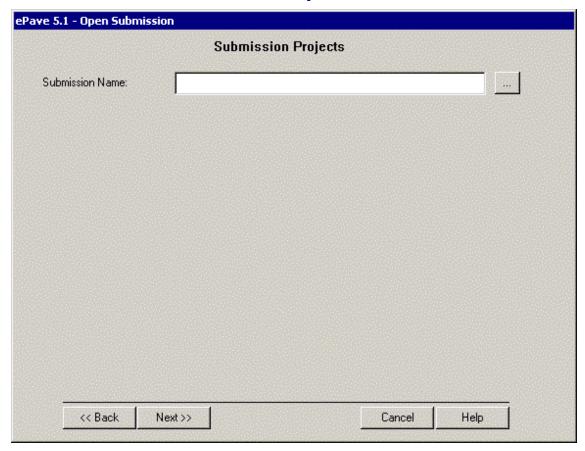

Submission Action screen: Open Submission Under Construction

- To edit or modify an existing folder select the *Open Submission Under Construction (Created, not yet submitted)* button.
- Select the *Next* button to activate the *Submission Projects* screen.

#### **Submission Projects Screen**

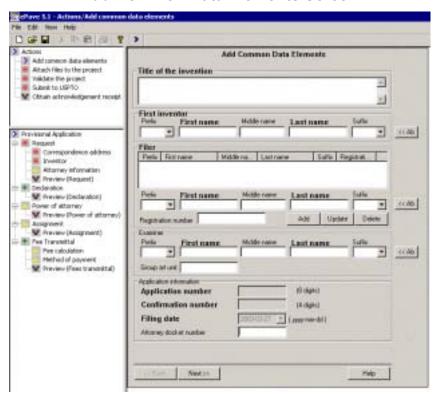

Submission Projects screen

- Type the folder path and name or select the button labeled . . . which stands for browse to navigate to the folder to be opened.
- Select the *Back* button to return to the *Submission Action* screen. Select the *Next* button to proceed to the *Add Common Data Elements* screen. Select the *Cancel* button to exit ePAVE. Select the *Help* button for information about the screen.

# Providing Data Within the Provisional Module Add Common Data Elements Screen

Add Common Data Elements screen

• Enter data that will be used on more than one ePAVE-created form in the data entry boxes.

#### Title of the Invention

• Enter the full title of the patent application. Include all spaces and punctuation. The title may contain a maximum of 500 alphanumeric characters. REQUIRED.

#### **First Inventor**

• Enter the name of the inventor who is listed first in the declaration of the patent application related to this submission. REQUIRED.

**Prefix**- Enter any name prefix of the first named inventor. Choose the desired prefix from the drop-down menu or type directly into the data field. OPTIONAL.

*First Name* - Enter the first or given name of the first named inventor. REQUIRED.

Middle Name - Enter any middle name of the first named inventor. OPTIONAL.

*Last Name* – Enter the last or family name of the first named inventor. REQUIRED.

**Suffix** – Enter any name suffix of the first named inventor. OPTIONAL.

All changes to the first inventor name information must be made from the *Add Common Data Elements* screen.

NOTE: Each name should contain a maximum of 50 characters. Characters beyond the 50<sup>th</sup> will be truncated within USPTO internal automated information systems.

#### Filer

• Enter the name of the person filing the patent application.

**Prefix**- Enter any name prefix of the filer. Choose the desired prefix from the drop-down menu or type directly into the data field. OPTIONAL.

*First Name* - Enter the first or given name of the filer. REQUIRED.

*Middle Name* – Enter any middle name of the filer. OPTIONAL.

Last Name - Enter the last or family name of the filer. REQUIRED.

Suffix – Enter any name suffix of the filer. OPTIONAL.

Add, Update, or Delete information Select the Add button after entering the filer information. Enter additional filer name information if more than one person is filing the submission.

To edit filer information, select a filer's name from the list. The filer's name will be available in the data entry boxes for editing when the name is selected. Edit the information and select the *Update* button.

To delete a filer, select the filer's name from the list and select the *Delete* button.

#### **Examiner**

• Enter the name of the examiner assigned or likely to be assigned to the corresponding patent application. OPTIONAL.

**Prefix-** Enter any name prefix of the examiner. OPTIONAL.

*First Name* - Enter the first or given name of the examiner. REQUIRED if an examiner is specified.

*Middle Name* – Enter any middle name of the examiner. OPTIONAL.

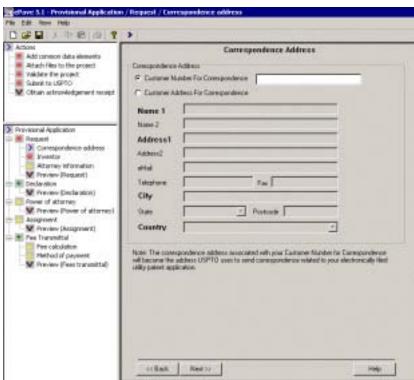

**Last Name** - Enter the last or family name of the examiner. REQUIRED if an examiner is specified.

Suffix – Enter any name suffix of the examiner. OPTIONAL.

*Group Art Unit* – Enter the group art unit where the Examiner is assigned. OPTIONAL.

## **Attorney Docket Number**

- Enter a reference number of up to 25 characters that is used to identify the patent application. This number is not assigned by the USPTO and can be any combination of numbers and letters. OPTIONAL.
- Select the *Next* button to proceed to the *Correspondence Address* screen. Select the *Help* button for information about this screen.

# **Correspondence Address Screen**

Correspondence Address screen

• Select either the *Customer Number For Correspondence* or *Customer Address For Correspondence* button. The address associated with the customer number or the entered address will be the address where correspondence associated with this patent application will be sent. Selecting the *Customer Number For Correspondence* 

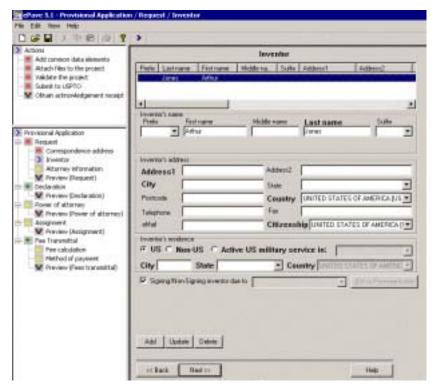

button will disable the *Customer Address For Correspondence* button and data fields and vice versa

- Select the *Customer Number For Correspondence* button only if a customer number from the USPTO has been received. Enter the customer number in the data field.
- If no customer number has been received, select the *Customer Address For Correspondence* button. Enter the address information in the data fields.
  - *Name 1* Enter the name for the correspondence address. REQUIRED.
  - *Name 2* Enter any additional name information for the address. OPTIONAL.
  - *Address1* Enter the street address for the correspondence address. REQUIRED.
- *Address2* Enter the internal address for the correspondence address, such as suite, building name, mail stop, etc. OPTIONAL.
  - *Email* Enter the e-mail address for the correspondence address. OPTIONAL.
- **Telephone** Enter the telephone number for the correspondence address. OPTIONAL
  - *Fax* Enter the fax number for the correspondence address. OPTIONAL.
  - *City* Enter the city for the correspondence address. REQUIRED.
- **State** If the correspondence address is located in the United States or in a U.S. territory, enter the state for the correspondence address. Select a state from the drop-down menu for addresses in the United States or U.S. territories. REQUIRED for a correspondence address that is in the United States or U.S. territories.
- **Postcode** Enter the 5 9 digit postal code for the correspondence address. Entry of a postal code for foreign countries is optional. OPTIONAL.
- *Country* Enter the country of the correspondence address. Select a country from the drop-down menu for addresses outside of the United States or U.S. territories. REQUIRED.
- Select the *Back* button to return to the *Add Common Data Elements* screen. Select the *Next* button to proceed to the *Inventor* screen. Select the *Help* button for information about the screen.

#### **Inventor Screen**

Inventor screen

The name of the first named inventor was added in the *Add Common Data Elements* screen and will appear in the list of inventors.

- Select the first named inventor from the inventor list.
- Include additional address, citizenship and residence information for the first named inventor.
- Indicate whether the first named inventor is a signing or non-signing inventor.
- Select the *Update* button to update the first named inventor's information.
- Include name, address, citizenship, and residence information for each additional inventor, indicate whether the additional inventor is a signing or non-signing inventor and select the *Add* button.

#### Inventor's name

**Prefix**- Enter any name prefix of the inventor. OPTIONAL.

First Name - Enter the first or given name of the inventor. REQUIRED.

*Middle Name* – Enter any middle name of the inventor. OPTIONAL.

Last Name - Enter the last or family name of the inventor. REQUIRED.

Suffix – Enter any name suffix of the inventor. OPTIONAL.

#### Inventor's address

*Address1* – Enter the street address of the inventor. REQUIRED.

*Address2* – Enter the internal address of the inventor, such as suite, building name, mail stop, etc. OPTIONAL.

City - Enter the city of the inventor's address. REQUIRED.

**State** – If the inventor's address is in the United States or in a U.S. territory, enter the state of the inventor's address. Select a state from the drop-down menu for addresses in the United States or U.S. territories. OPTIONAL.

**Postcode** - Enter the 5 - 9 digit postal code of the inventor's address. Entry of a postal code for foreign countries is optional. OPTIONAL if the inventor has a mailing address in the United States or U.S. territories.

*Country* – Enter the country of the inventor's address. Select a country from the drop-down menu for addresses outside of the United States or U.S. territories. REQUIRED.

*Telephone* - Enter the telephone number of the inventor. OPTIONAL.

Fax - Enter the fax number of the inventor. OPTIONAL.

**Email** - Enter the e-mail address of the inventor. OPTIONAL.

*Citizenship* – Enter the citizenship of the inventor. Select the citizenship from the choices available in the drop-down menu. REQUIRED.

#### Inventor's residence

- Select one of the *US*, *Non-US*, and *Active U.S. military service in* buttons. One of the three buttons must be selected. REQUIRED.
- If the *US* button is selected, enter the City and State of the inventor's residence.
- If the *Non-US* button is selected, enter the City and Country of the inventor's residence.
- If the *Active U.S. military service* button is selected, indicate the region of the world where the inventor is stationed. AE indicates that the inventor is serving in Europe or Africa. AP indicates that the inventor is serving in the Pacific. AA indicates that the inventor is serving in the Americas excluding Canada.
  - *City* Enter the city of the inventor's residence. REQUIRED.

**State** - Enter the state of the inventor's residence. Select a state from the drop-down menu for addresses in the United States or U.S. territories. REQUIRED if the inventor is a U.S. resident.

**Country** – Enter the country of residence of the inventor. Select a country from the drop-down menu for addresses outside of the United States or U.S. territories. REQUIRED.

## Signing/Non-Signing inventor due to

The default setting for this field indicates a signing inventor.

- If the inventor is non-signing, deselect the check box and select the reason that the inventor is not signing from the *Non-Signing inventor due to* drop-down menu.
- Select the *SW* (*switch*) *to representative* button to enter information related to the entity representing the non-signing inventor.

Add, Update, or Delete information Select the *Add* button after entering the inventor name information. Enter additional inventor name information if more than one person is listed as the inventor.

To edit inventor name information, select an inventor's name from the list. The inventor's name will be available in the data entry boxes for editing when the name is selected. Edit the information and select the *Update* button.

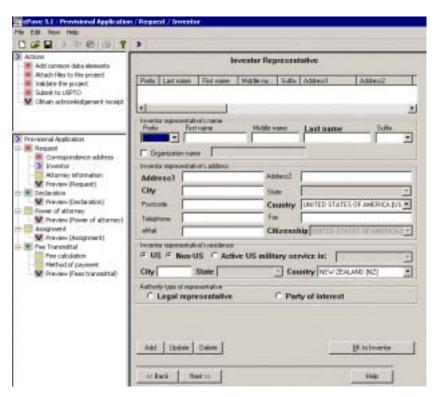

To delete an inventor, select the inventor's name from the list and select the *Delete* button.

When an inventor is non-signing, information related to the inventor's representative must be provided. Select the *SW to Representative* button on the *Inventor* screen to enter the representative's information.

## **Inventor Representative Screen**

When the *SW to representative* button is selected, the *Inventor Representative* screen is displayed.

**Inventor Representative Screen** 

- Enter name, address, and residence information for the inventor's representative on this screen.
- If the representative is an organization, select the *Organization name* box and enter the name of the organization providing representation in the data field.
- If the representative is an individual provide name information for the representative is the *Inventor representative's name* fields.

### Inventor representative's name

**Prefix**- Enter any name prefix of the inventor's representative. OPTIONAL.

*First Name* - Enter the first or given name of the inventor's representative. REQUIRED.

*Middle Name* – Enter any middle name of the inventor's representative. OPTIONAL.

*Last Name* - Enter the last or family name of the inventor's representative. REQUIRED.

**Suffix** – Enter any name suffix of the inventor's representative. OPTIONAL.

• Enter the representative's address in the *Inventor representative's address* fields.

### Inventor representative's address

*Address1* – Enter the street address of the representative. REQUIRED.

*Address2* – Enter the internal address of the representative, such as suite, building name, mail stop, etc. OPTIONAL.

*City* - Enter the city of the representative's address. REQUIRED.

**State** - Enter the state of the representative's address if the representative's address is in the United States or a U.S. territory. Select a state from the drop-down menu for addresses in the United States or U.S. territories. OPTIONAL.

**Postcode** - Enter the 5 - 9 digit postal code of the representative's address. Entry of a postal code for foreign countries is optional. OPTIONAL.

*Country* – Enter the country of the representative's address. Select a country from the drop-down menu for addresses outside of the United States or U.S. territories. REQUIRED.

*Telephone* - Enter the telephone number of the representative. OPTIONAL.

Fax - Enter the fax number of the representative. OPTIONAL.

**Email** - Enter the e-mail address of the representative. OPTIONAL.

*Citizenship* – Enter the citizenship of the representative. Select the citizenship from the choices available in the drop-down menu. REQUIRED.

• Enter the representative's residence in the *Inventor representative's residence* fields.

## Inventor's representative residence

- Select one of the *US*, *Non-US*, and *Active U.S. military service in* buttons. One of the three buttons must be selected. REQUIRED.
- If the *US* button is selected, enter the *City* and *State* of the representative's residence
- If the *Non-US* button is selected, enter the *City* and *Country* of the representative's residence.
- If the *Active U.S. military service* button is selected, indicate the region of the world where the representative is stationed. AE indicates that the representative is serving in Europe or Africa. AP indicates that the representative is serving in the Pacific. AA indicates that the representative is serving in the Americas excluding Canada.
  - *City* Enter the city of the representative's residence. REQUIRED.

*State* - Enter the state of the representative's residence. Select a state from the drop-down menu for addresses in the United States or U.S. territories. REQUIRED if the representative is a U.S. resident.

*Country* – Enter the country of residence of the representative. Select a country from the drop-down menu for addresses outside of the United States or U.S. territories. REQUIRED.

## Authority type of representative

- Indicate the capacity of the representing by choosing from the *Legal* representative button and the *Party of interest* button.
- Select the *Legal representative* button if the representative is serving as a legal representative.
- Select the *Party of interest* button if the representative is a party of interest in the present patent application.
- After inventor's representative information is entered, select the *Add* button.
- After the information has been entered and added, select the *SW to inventor* button to return to the *Inventor* screen.

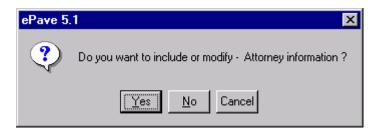

Add, Update, or Delete information Select the *Add* button after entering the inventor representative information. Enter additional inventor representative information if more than one person is listed as the inventor representative.

To edit inventor representative information, select an inventor representative name from the list. The inventor representative name will be available in the data entry boxes for editing when the name is selected. Edit the information and select the *Update* button.

To delete an inventor representative, select the inventor representative name from the list and select the *Delete* button.

• Select the *Back* button to return to the *Correspondence Address* screen. Select the *Next* button to proceed to a dialogue box where the desire to include attorney information may be indicated. Select the *Help* button for information about the screen.

If *Next* is selected a dialogue box will be displayed allowing the user to indicate whether attorney information is to be provided.

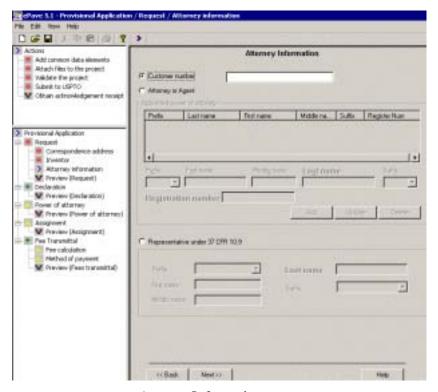

ePAVE prompt re: attorney information

- Select *Yes* to include attorney information.
- Select *No* to skip the *Attorney Information* screen.
- Select *Cancel* to remain in the *Inventor or Inventor 's Representative* screen.

# **Attorney Information Screen**

If **Yes** is selected, the **Attorney Information** screen will be displayed.

Attorney Information screen

- Select the *Customer number*, *Attorney or Agent* or *Representative under 37 CFR 10.9* button. Only one button may be selected and the data fields associated with the other two options will be disabled.
- Enter data into the data fields associated with the selection.
- If *Customer number* is selected enter the customer number associated with attorney information for this application.
- If *Attorney or Agent* is selected, enter the name and registration information for each attorney and select the *Add* button when the information is complete. Repeat for each attorney or agent.

## **Attorney or Agent**

• Enter individual attorney or agent information one listing at a time.

**Prefix**- Enter any name prefix of the attorney or agent. Choose the desired prefix from the drop-down menu. OPTIONAL.

First Name - Enter the first or given name of the attorney or agent. REQUIRED.

*Middle Name* - Enter any middle name of the attorney or agent. OPTIONAL.

*Last Name* – Enter the last or family name of the attorney or agent. REQUIRED.

Suffix – Enter any name suffix of the attorney or agent. OPTIONAL.

**Registration number** - Enter the USPTO registration number of the agent or attorney.

# Add, Update, or Delete information

Select the *Add* button after entering attorney or agent information. Enter additional attorney or agent information if more than one attorney or agent is being included.

To edit attorney or agent information, select an attorney or agent from the list. The attorney or agent will be available in the data entry boxes for editing when the information is selected. Edit the information and select the *Update* button.

To attorney or agent information, select the attorney or agent from the list and select the *Delete* button.

• If *Representative under 37 C.F.R. 10.9* is selected enter the name information for the representative.

## Representative under 37 C.F.R. 10.9

**Prefix**- Enter any name prefix of the representative. Choose the desired prefix from the drop-down menu. OPTIONAL.

**Last Name** – Enter the last or family name of the representative. OPTIONAL.

*First Name* - Enter the first or given name of the representative. OPTIONAL.

**Suffix** – Enter any name suffix of the representative. OPTIONAL.

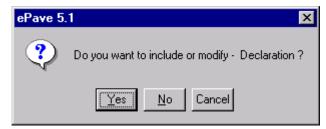

*Middle Name* - Enter any middle name of the representative. OPTIONAL.

• Select the *Back* button to return to the *Inventor or Inventor 's Representative* screen. Select the *Next* button to proceed to a dialogue box to indicate if a declaration in xml format is to be provided. Select the *Help* button for information about the screen.

## **Declaration Screen**

A dialogue box will be displayed allowing the user to indicate whether a declaration as an xml document is to be provided.

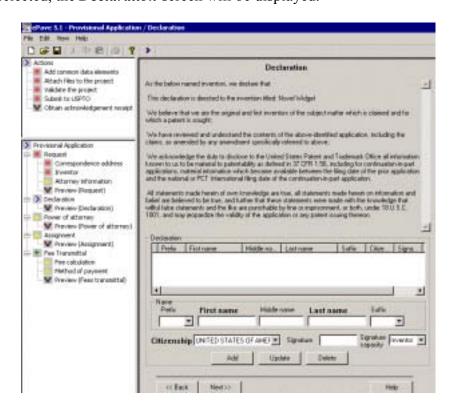

ePAVE prompt re: declaration

- Select Yes to provide an xml Declaration.
- Select *No* if no declaration is being provided or if the declaration is being provided as a scanned tiff image or images.
- Select *Cancel* to remain on the *Publication Assignee Information* screen.

In the *Declaration* screen, inventor or representative names and electronic signatures are collected. See 37 C.F.R. 1.63 -1.68 for more information about declarations.

In the alternative, declarations may be submitted in the form of TIFF images from a scanned paper copy of the declaration in the *Attach Files to Project* screen.

If **Yes** is selected, the **Declaration** screen will be displayed.

User Manual for ePAVE 5.1 Provisional Page 49 of 87

#### **Declaration** screen

- Enter the name and citizenship of each inventor.
- Each inventor may include his/her signature and should enter a signature capacity.
- Select *Add* to include that inventor's information in the declaration.
- Repeat for each inventor.

Data in the *Declaration* screen may be entered for two types of individuals: actual inventors and authorized representatives of inventors who cannot or will not sign.

See 37 C.F.R. sections 1.41, 1.42, 1.43, 1.47, and 1.63 to 1.69 for more information about authorized representatives and their role in declarations.

#### Name

• Enter the first name and last name of inventor or authorized representative.

**Prefix**- Enter any name prefix of the inventor or authorized representative. Choose the desired prefix from the drop-down menu. OPTIONAL.

*First Name* - Enter the first or given name of the inventor or authorized representative. REQUIRED.

*Middle Name* - Enter any middle name of the inventor or authorized representative. OPTIONAL.

**Last Name** – Enter the last or family name of the inventor or authorized representative. REQUIRED.

**Suffix** – Enter any name suffix of the inventor or authorized representative. OPTIONAL

#### **Additional information**

*Citizenship* - Enter the citizenship of the declarant. Select the citizenship from the choices available in the drop-down menu. REQUIRED.

**Signature** - Add an electronic signature. The electronic signature is any sequence of alphanumeric characters that represents a signature. An example of a signature may be "hhh" or "John Smith." OPTIONAL.

**Note:** This signature is an electronic legal signature. The individual named MUST add the signature if a signature is provided.

**Signature capacity** – Choose the signature capacity of the declarant by selecting from the drop-down menu or typing in free-form text. OPTIONAL.

Add, Update, or Delete information Select the *Add* button after entering inventor or authorized representative information. Enter additional inventor or authorized representative if more than one inventor or authorized representative is being included.

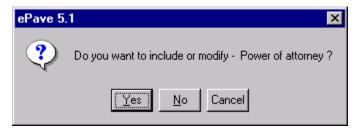

To edit inventor or authorized representative information, select an inventor or authorized representative from the list. The inventor or authorized representative will be available in the data entry boxes for editing when the information is selected. Edit the information and select the *Update* button.

To delete inventor or authorized representative information, select the inventor or authorized representative from the list and select the *Delete* button.

• Select the *Back* button to return to the *Attorney information* dialogue box. Select the *Next* button to proceed to a dialogue box to indicate if a power of attorney as an xml document is to be provided. Select the *Help* button for information about the screen.

# **Power of Attorney Screen**

If *Next* is selected, a dialogue box will be displayed allowing the user to indicate whether a power of attorney as an xml document is to be provided.

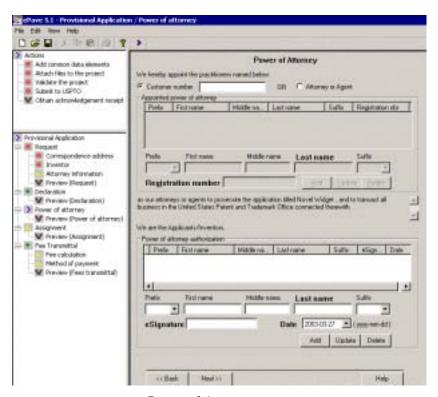

ePAVE prompt re: power of attorney

- Select **Yes** to provide an xml power of attorney.
- Select *No* if no power of attorney is being provided or if the power of attorney is being provided as a scanned tiff image.
- Select *Cancel* to remain on the *Declaration* screen.

A power of attorney may be submitted in the form of TIFF images from a scanned paper copy of the power of attorney in the *Attach Files to Project* screen.

If **Yes** is selected, the **Power of Attorney** screen will be displayed.

Power of Attorney screen

- Select either the *Customer number* or *Attorney or Agent* button. Selecting the *Customer number* button will disable the *Attorney or Agent* data fields and vice versa.
- Select *Customer number* and enter the customer number to grant power of attorney to an attorney or a group of attorneys that are associated with a USPTO-provided customer number.
- Select *Attorney or Agent* to grant power of attorney to an attorney or agent or group of attorneys and/or agents without associating them to a USPTO-provided customer number and enter the name and registration number of the attorney(s) and/or agents in the Appointed power of attorney data fields.
- Select *Add* to add the attorney or agent name and registration number to the list of attorneys or agents.
- Continue to add attorney or agent name and registration number for each additional attorney or agent.

#### **Appointed power of attorney**

**Prefix**- Enter any name prefix of the individual who is granted power of attorney. Choose the desired prefix from the drop-down menu. OPTIONAL.

*First Name* - Enter the first or given name of the individual who is granted power of attorney. REQUIRED.

*Middle Name* - Enter any middle name of the individual who is granted power of attorney. OPTIONAL.

*Last Name* – Enter the last or family name of the individual who is granted power of attorney. REQUIRED.

**Suffix** – Enter any name suffix of the individual who is granted power of attorney. OPTIONAL.

**Registration number** - Enter the registration number of the agent or attorney that is licensed to practice before the USPTO. REQUIRED.

# Add, Update, or Delete information

Select the *Add* button after entering power of attorney information. Enter additional power of attorney information if more than one power of attorney designee is being included.

To edit power of attorney information, select a power of attorney designee from the list. The power of attorney designee will be available in the data entry boxes for editing when the information is selected. Edit the information and select the *Update* button.

To delete power of attorney information, select the power of attorney designee from the list and select the *Delete* button.

• Enter name and signature information for each individual authorizing the power of attorney.

## Power of attorney authorization

*Prefix*- Enter any name prefix of the individual who is authorized to grant the power of attorney. Choose the desired prefix from the drop-down menu. OPTIONAL.

*First Name* - Enter the first or given name of the individual who is authorized to grant the power of attorney. OPTIONAL.

*Middle Name* - Enter any middle name of the individual who is authorized to grant the power of attorney. OPTIONAL.

**Last Name** – Enter the last or family name of the individual who is authorized to grant the power of attorney. REQUIRED.

**Suffix** – Enter any name suffix of the individual who is authorized to grant the power of attorney. OPTIONAL.

**eSignature** – Add an electronic signature. The electronic signature is any sequence of alphanumeric characters that represents a signature. An example of a signature may be "hhh" or "John Smith."

**Note:** This signature is an electronic legal signature. The individual named MUST add a signature.

**Date** – Enter the date that the power of attorney is being signed. Or, select a date from the drop-down menu, which converts into a calendar.

# Add, Update, or Delete information

Select the *Add* button after entering power of attorney authorization information. Enter additional power of attorney authorization information if more than one power of attorney authority is being included.

To edit power of attorney authorization information, select a power of attorney authority from the list. The power of attorney authority will be available in the data entry boxes for editing when the information is selected. Edit the information and select the *Update* button.

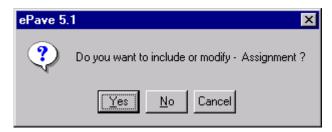

To delete power of attorney authorization information, select the power of attorney authority from the list and select the *Delete* button.

• Select the *Back* button to return to the *Declaration* dialogue box. Select the *Next* button to proceed to a dialogue box to indicate whether an assignment is included. Select the *Help* button for information about the screen.

# **Assignments Screen**

If *Next* is selected, a dialogue box will be displayed allowing the user to indicate whether an assignment is to be provided.

ePAVE prompt re: assignments

- Select **Yes** to provide an assignment.
- Select *No* if no assignment is being provided.
- Select *Cancel* to remain on the *Power of Attorney* screen.

#### Helpful information about assignment recordation

To record an assignment in the USPTO, specific information is required. The data elements required on the Assignment Recordation Cover sheet, Form 1595, that is used in paper and fax filings are also required in electronic filings.

In order to comply with the Government Paper Elimination Act, delivery of the completed assignment form via fax is the preferred method to communicate with the correspondent. The default delivery method is by fax and requires a fax number to be entered in the appropriate field.

Submitting completed assignment forms to the USPTO via fax delivery is beneficial because this will eliminate possible delays in returning official communications to the correspondent. It will also provide faster turn-around processing.

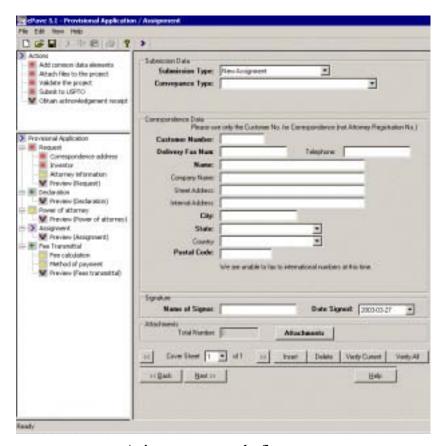

If assignments are filed electronically, the Assignment Services Division in the Office of Public Records, the main office in the USPTO that handles assignments, will not modify your electronic data, with the exception of modifying the customer number for the correspondence address.

When **Yes** is selected, the first assignment screen is displayed.

When submitting assignment information with a provisional submission, data will be entered in two screens.

## **Creating Assignment Coversheets**

Assignment screen, the first screen

- Select a *Conveyance Type* from the drop-down list or type the conveyance type into the data field. Enter the desired conveyance type in free form if the assignment transaction is not a standard conveyance type and is not in the drop-down menu. REQUIRED if submission data is entered.
- Enter *Correspondence Data*. Provide the name and address of the correspondent or correspondents (persons or companies) to whom the USPTO should direct official communications pertaining to this assignment filing. Enter a customer number or enter the full correspondence name and address. Entering data is the *Customer Number* data entry box will disable the correspondence name and address data entry boxes and vice versa.

### **Customer Number or Correspondence Address**

• Enter the USPTO provided customer number in the data entry box. If the customer number is less than 6 digits, zeroes will be added to the front of the customer number to make it a 6-digit number. REQUIRED unless full correspondence name and address is entered.

**Note:** During the examination processing of the assignment, the Office of Public Records will electronically retrieve the official address associated with the customer number. Characters are not allowed in this field.

**Delivery Fax Number** – Enter the fax number of the correspondent. Notice of assignment recordation or non-recordation will be returned to this fax number. Please enter a dedicated fax number. Numbers that are associated with PBX equipment, a switchboard or answering machine telephone lines will cause the fax transmission to fail. REQUIRED.

NOTE: Faxing to an international telephone number is not permitted at this time. This field is limited to 12 characters.

*Telephone* – Enter the telephone number, including area code, of the correspondent. OPTIONAL.

*Name* – Enter the name of the correspondent. REQUIRED if full correspondence name and address is entered.

**Company Name** – Enter the name of the correspondent (company) to whom the USPTO should direct official communications. OPTIONAL.

*Street Address* – Enter the street address of the correspondent. OPTIONAL.

*Internal Address* – Enter the internal address of the correspondent, such as suite, building name, mail stop, etc. OPTIONAL.

*City* - Enter the city of the correspondent. REQUIRED if full correspondence name and address is entered.

**State** - Enter the state of the correspondent. Select a state from the drop-down menu for addresses in the United States or U.S. territories. REQUIRED if the correspondent has a mailing address in the United States or U.S. territories and if full correspondence name and address is entered.

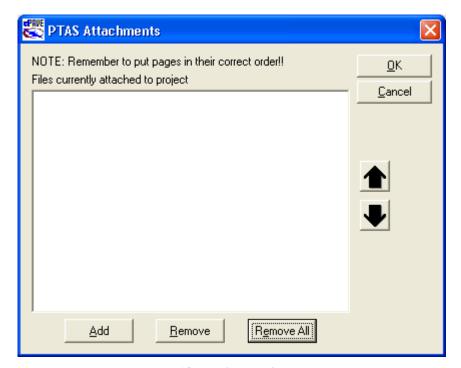

**Country** – Enter the country of residence of the correspondent. Select a country from the drop-down menu for addresses outside of the United States or U.S. territories. OPTIONAL.

**Postal code** - Enter the 5 - 9 digit postal code for the correspondent. Entry of a postal code for foreign countries is optional. REQUIRED if the correspondent has a mailing address in the United States or U.S. territories and if full correspondence name and address is entered.

NOTE - Assignment recordation practices allow entry of a state or country, but not both. Selection of one will disable the other. If an entry has been made into one of these fields erroneously, delete the entry in the erred field in order to access the desired field.

## **Signature**

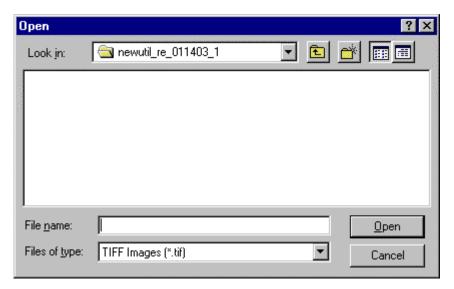

- *Name of Signor* Enter the name of the person who is electronically signing the submission. This field is limited to 40 characters.
- **Date Signed** Select the date that the assignment is being signed.
- Select the *Attachments* button Selecting this will open an attachment box to attach the TIFF images to the assignment. These TIFF images are scanned documents that supports the data entered in the current cover sheet form.

PTAS attachments button

• Select the *Add* button to open the following dialog box, allowing TIFF image to be inserted.

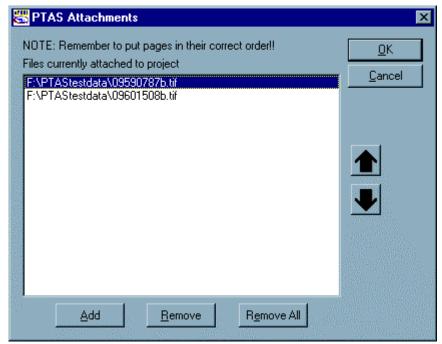

TIFF image look-up

• After locating the image to be added, highlight the image to open it. Repeat this procedure to attach TIFF images as needed.

A legal supporting (conveyance/assignment) document is required to be attached to each authored cover sheet.

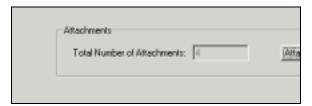

• After adding attachments, they may be removed them by highlighting the image to be removed and selecting the *Remove* button. Remove all attached images by selecting the *Remove All* button.

The PTAS Attachments screen

- Use the arrow buttons to place the images in the proper order. Highlight the name of the image and use the up arrow to move it up in order. Use the down arrow to move it down in order. Please ensure that the list of attachments is in the proper page order for this electronic submission. This will ensure proper page order within the microfilm media. The recorded document will be placed on microfilm in the order the document is received. For example, based on the listing shown in the Selection of TIFF Images figure above, the file F:\PTAStestdata\09590787b.tif would become page 1 of the attachment and F:\PTAStestdata\09601508b.tif would become page 2 of the attachment.
- After attaching the images, select the **OK** button to continue.

Total Number of Attachments

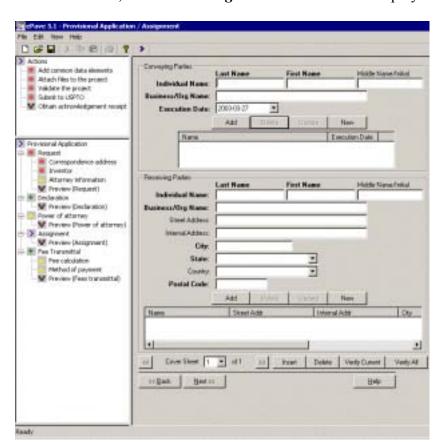

The entry for the total number of attachments is automatically calculated based on the selection of files, and is displayed in the attachment field.

Upon receipt in the Patent and Trademark Office, the electronic XML assignment document and assignment attachments will enter the Patent and Trademark (automated) Assignment System. During PTO pre-processing the assignment XML document is rendered using an XSL Stylesheet. This rendered document is then converted into a TIFF image and merged with the assignment attachments into an electronic folder that contains one assignment cover sheet document (may consist of multiple pages) and one assignment document (pages determined based on attachments). This process allows the electronic assignment submission to be entered directly into the automated Patent and Trademark Assignment System.

• Select the *Next* button to go to the second screen in the *Assignments* screens. Select the *Back* button to receive a dialogue box where a desire to exit the Assignments section can be indicated.

If the *Next* button is selected, the second *Assignment* screen will be displayed.

Assignment screen

#### **Conveying parties**

A conveying party may be a person, business, or organization.

• Enter at least one conveying party name and execution date. Enter data in a special format as explained below.

## Individual name

**Last Name** – Enter the last or family name of the conveying party. REQUIRED if the conveying party is a person. This field is limited to 100 characters.

*First Name* – Enter the first or given name of the conveying party. REQUIRED if the conveying party is a person. This field is limited to 100 characters.

*Middle Name/Initial* – Enter any middle name or initial of the conveying party. OPTIONAL. This field is limited to 40 characters.

**Business/Org name** – Enter the name of the business or organization conveying the assignment. REQUIRED if the conveying party is a business or organization. This field is limited to 240 characters.

**Execution date** - Choose the date when the conveying party executes the assignment document by selecting from the drop-down menu. Dates must be in YYYY-MM-DD format. This date must match the date that appears in the conveyance document that is attached to this submission as a TIFF image. If additional conveying parties are added, the prior date entered is shown. Each part of the date may be selected and changed as appropriate. The execution date may not be greater than the current date. REQUIRED for each conveying party.

NOTE: To facilitate internal search functions in the USPTO, please add data in the *conveying* parties section by applying the following format.

Conveying party Proper Format

Business entities, regular Jones Building Supply

Business entities, beginning with 'The' Hartley Candy Company, The

Schools, colleges and universities Maryland, University of

Government agencies Energy, U.S. Department of

Government organizations Army, United States of America as

represented by the Secretary of the Army

# Add, Update, or Delete information

Select the *Add* button after entering the conveying parties information.

To edit conveying parties information, select a conveying party's name from the list. The conveying party's name will be available in the data entry boxes for editing when the name is selected. Edit the information and select the *Update* button.

To delete a conveying party, select the conveying party's name from the list and select the *Delete* button.

• Select the *New* button to add new conveying parties information.

### Receiving parties

A receiving party may be a person, business, or organization.

• Enter at least one receiving party name and address. Enter data in a special format as explained below.

### Individual name

**Last Name** – Enter the last or family name of the receiving party if the receiving party is a person. REQUIRED if the receiving party is a person.

*First Name* – Enter the first or given name of the receiving party if the receiving party is a person. REQUIRED if the receiving party is a person.

*Middle Name/Initial* – Enter any middle name or initial of the receiving party. OPTIONAL.

**Business/Org name** – Enter the name of the business or organization that the property is being assigned to. REQUIRED if the receiving party is a business or organization.

**Street Address** – Enter the street address of the receiving party. OPTIONAL.

*Internal Address* – Enter the internal address of the receiving party, such as suite, building name, mail stop, etc. OPTIONAL.

City - Enter the city of the receiving party. REQUIRED.

**State** - Enter the state of the receiving party. Select a state from the drop-down menu for addresses in the United States or U.S. territories. REQUIRED if the receiving party has a mailing address in the United States or U.S. territories.

**Country** – Enter the country of residence of the receiving party. Select a country from the drop-down menu for addresses outside of the United States or U.S. territories. OPTIONAL

**Postal code** - Enter the 5 - 9 digit postal code for the receiving party. Entry of a postal code for foreign countries is optional. REQUIRED if the receiving party has a mailing address in the United States or U.S. territories.

NOTE - Assignment recordation practices allow entry of a state or country, but not both. Selection of one will disable the other. If an entry has been made into one of these fields erroneously, delete the entry in the erred field in order to access the desired field.

NOTE: To facilitate internal search functions in the USPTO, please add data in the receiving parties section by applying the following format.

<u>Conveying party</u> <u>Proper Format</u>

Business entities, regular Jones Building Supply

Business entities, beginning with 'The' Hartley Candy Company, The

Schools, colleges and universities Maryland, University of, The

California, University of, The Board of

Trustees

Government agencies Energy, U.S. Department of

Government organizations Army, United States of America as

represented by the Secretary of the Army

Add, Update, or Delete information Select the *Add* button after entering the receiving parties information. To edit receiving parties information, select a receiving party's name from the list. The receiving party's name will be available in the data entry boxes for editing when the name is selected. Edit the information and select the *Update* button.

To delete a receiving party, select the receiving party's name from the list and select the *Delete* button.

• Select the *New* button to add new receiving parties information.

#### Validating Required Data Elements

It is essential to provide required data elements in order to record the assignment. To ensure that all required data elements have been entered, validation routines are provided. Validation routines occur automatically as cover sheets are navigated after exiting the second screen in the *Assignments* screen and saving the assignment file.

A message will be displayed only if a cover sheet lacks any required data. Validation routines may be executed by selecting the *Verify Current* or *Verify All* buttons.

- Select the *Verify Current* button to validate the contents of the cover sheet that is currently being worked on.
- Select the *Verify All* button to validate the contents of all cover sheets.

### **Navigating within Multiple Cover Sheets**

- To navigate within cover sheets, select the button marked "<<" with double left arrows to return the previous cover sheet or the button marked ">> " with double right arrows to go to the *Next* cover sheet.
- Select the *Insert* button to insert additional cover sheets. A maximum of 5 cover sheets may be included in a provisional submission.
- Select the *Delete* button to delete cover sheets before submitting the transmission to the USPTO.

Close-up of cover sheet toolbar

If the validation routines identify data that is missing from the current cover sheet, a message is displayed with detailed information about which required data elements are missing.

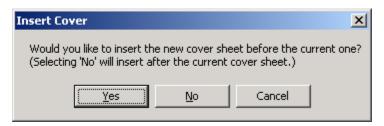

Example of missing information message in assignment cover sheets

• Select the **Yes** button to continue or the **No** button to return to the current cover sheet to correct the error.

- Select the *Insert* button on the cover sheet toolbar to create additional cover sheets or to insert a new cover sheet between two existing cover sheets.
- After selecting the *Insert* button, a dialogue box is displayed indicating that the new cover sheet may be insert before or after the current cover sheet.

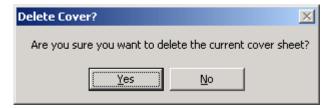

Example of inserting cover sheet message in assignments screen

- Select the **Yes** button to insert the new cover sheet before the current cover sheet.
- Select the *No* button to insert the new cover sheet after the current cover sheet.
- Select the *Cancel* button to return to the current cover sheet.

## **Deleting Cover Sheets**

• Select the *Delete* button on the cover sheet toolbar to remove the current cover sheet from the batch of cover sheets in this assignment filing. After selecting the *Delete* button, a dialogue box is displayed where the delete request can be confirmed or rejected.

Example of inserting cover sheet message in assignments screen

- Select the **Yes** button to delete the current cover sheet and continue.
- Select the *No* button to cancel the delete request and return to the current cover sheet.
- Select the button marked "<<" with double left arrows on the cover sheet toolbar to return the previous cover sheet or the button marked ">>" with double right arrows to go to the *Next* cover sheet.

When working on the last cover sheet and the button marked ">> " with double right arrows is selected to go to the *Next* cover sheet, a dialogue box is displayed to determine if an additional assignment cover sheet should be created.

Example of creating cover sheet message in assignments screen

- Select the *Yes* button to create an additional cover sheet.
- Select the *No* button to return to the current cover sheet.
- Select the *Yes* button to create a new cover sheet and the current cover sheet has attachments, a dialogue box is displayed to confirm whether the attachments from the current cover sheet should be copied to the new cover sheet.

Example of copy attachments in cover sheet message in assignments screen

- Select the **Yes** button to copy the attachments from the current cover sheet to the new cover sheet. The attached TIFF images in the current cover sheet will automatically be referenced and attached to the new cover sheet. If the same filename is attached in multiple cover sheets (consecutive or non-consecutive), the file will only be attached to the final submission package.
- Select the No button to include other attachments in the new cover sheet.

The identification of the attachments inside the cover sheet is only a reference. ePAVE will not allow duplicate filenames to be attached to the electronic package.

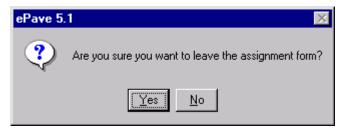

If the USPTO receives an assignment submission package including an XML file of the attachments and the XML file contains one or more references to the same filename, internal procedures will automatically generate the printing of one or more copies of the cover sheets. The printed copies of the cover sheets will be attached to the TIFF image of the conveyance document based on the references contained within each cover sheet.

• Select the *Back* button in the first assignment screen to receive a dialogue box where a desire to exit the Assignments section can be indicated. Select the *Back* button in the second assignment screen to return to the first assignment screen.

- Select the *Next* button in the first assignment screen to proceed to the second assignment screen. Select the *Next* button in the second assignment to receive a dialogue box to ensure that exiting the assignment form is desired.
- Select the *Help* button for information about the screen.

Selecting the *Next* button in the second assignment screen will cause a dialogue box to be displayed to confirm or reject an exit from the assignment form.

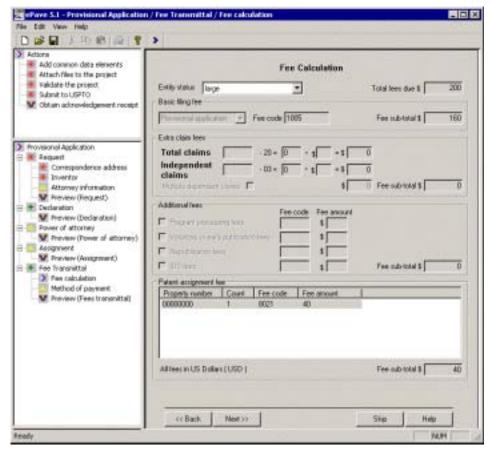

EPAVE prompt re: assignments

• Select the *Yes* button to proceed to the *Fee Calculation* screen. Select the *No* button to continue working on the assignment forms.

### **Fee Calculation Screen**

If **Yes** is selected, the **Fee Calculation** screen will be displayed.

Fee Calculation screen

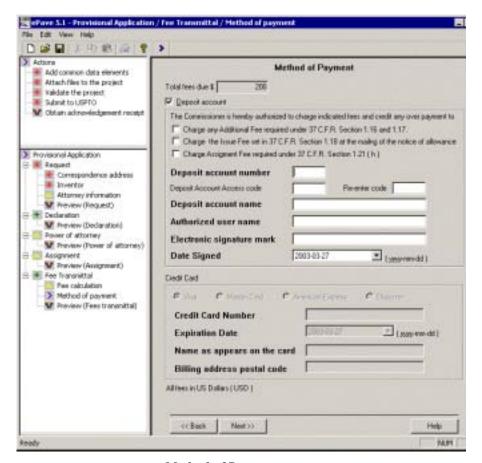

- *Entity status* Enter the entity status of the owner of this patent application. Select from large or small entity. See 37 C.F.R. 1.27 for more information on entity status. REQUIRED.
- Select the *Back* button to return to the Assignment dialogue box. Select the *Next* button to proceed to the Method of Payment screen. Select the *Skip* button to skip the creation of a fee sheet.

Note: A fee transmittal form will not be created if the Skip button is selected.

• Select the *Help* button for information about the screen.

# **Method of Payment screen**

Method of Payment screen

The total fees due for this submission are shown in the *Total fees due* data entry box.

• Choose the method of payment. Select either *Deposit account* or *Credit Card*. Selecting the *Deposit Account* button will disable the *Credit Card* button and data fields and vice versa.

#### **Deposit Account**

• If **Deposit** Account is selected enter deposit account information in the data fields.

If **Deposit account** is selected check box, additional fees may be authorized.

- *Additional fees* Select this check box to authorize the USPTO to charge additional fees, as set forth in 37 C.F.R. 1.16 or 1.17.
- *Issue fees* Select this check box to authorize the USPTO to charge issue fees that are due at the time of mailing of a notice of allowance, as set forth in 37 C.F.R. 1.18.

• Assignment fees - Select this check box to authorize the USPTO to charge additional assignment fees, as set forth in 37 C.F.R. 1.21(h).

**Deposit account number** - Enter the USPTO-issued deposit account number. REQUIRED.

**Deposit Account Access code** – Enter the access code associated with the deposit account for automated deposit account processing. Optional unless automated deposit account processing is desired.

**Re-enter code** – Reenter the access code to ensure that the proper code was initially entered. Optional unless automated deposit account processing is desired.

**Deposit account name** – Enter the first and last name of the person or entity associated with this USPTO-issued deposit account number. REQUIRED.

*Authorized user name* – Enter the first and last name of the user authorized to use this USPTO-issued deposit account. REQUIRED.

*Electronic signature mark* – Enter the electronic signature mark of the authorized user of the USPTO-issued deposit account. REQUIRED.

**Note:** This signature is an electronic legal signature. The individual named MUST add a signature.

**Date Signed** - Enter the date that the electronic signature mark is made or select the date from the drop-down menu, which converts into a calendar. REQUIRED.

#### **Credit Card**

- If the method of payment selected is credit card, choose the type of credit card used by selecting one of the *Visa*, *Master Card*, *American Express*, or *Discover* check boxes.
- Enter credit card information.

*Credit Card Number* - Enter the credit card number. REQUIRED.

*Expiration Date* – Enter the expiration date of the credit card. Or, select the date from the drop-down menu, which converts into a calendar. REQUIRED.

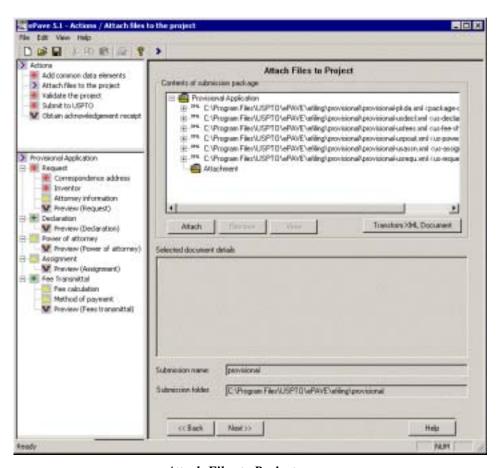

*Name as appears on the card* – Enter the name provided on the credit card. REQUIRED.

*Billing address postal code* – Enter the postal code of the credit card billing address. REQUIRED.

• Select the *Back* button to return to the *Fee Calculation* screen. Select the *Next* button to proceed to the *Attach Files to Project* screen. Select the *Help* button for information about the screen.

## **Attach Files to Project Screen**

Attach Files to Project screen

#### **General Information**

Data entered in previous screens is captured in forms in XML format. These forms are automatically attached to the submission and appear in the attachments screen. Each XML document will refer to a document type definition file and a stylesheet.

After entering the data from all previous screens, the specification file must be attached before submitting the package to the USPTO.

A provisional application may also include other files. Declaration, power of attorney, and small entity statements may be included as TIFF images. A provisional application

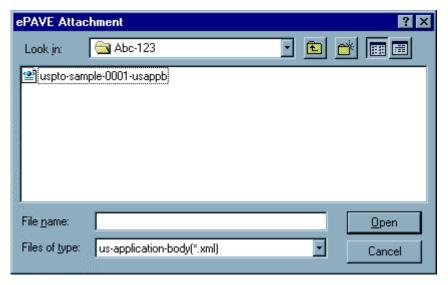

may also include ASCII text files of external tables or computer program listings according to 37 C.F.R. 1.52. Biosequence listings may be included as ASCII text files that contain \*.txt, \*.app, or \*.zip extensions.

#### **Attaching files**

Attach files by completing the following steps:

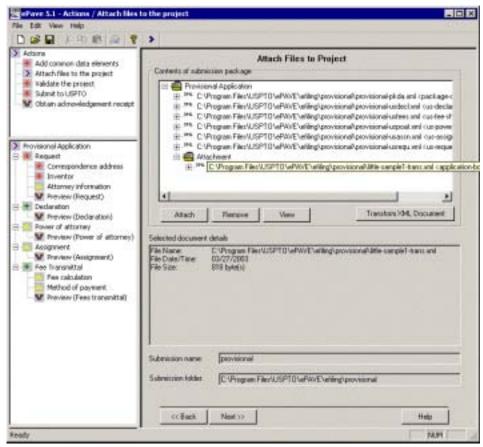

- Select the *Attach* button to attach files.
- After the *Attach* button is selected, a dialogue box will be displayed allowing the desired files to be attached.

Select the file to attach

- Attach the XML specification and any associated TIFF image files by double-clicking the file name or by selecting the file and selecting the *Open* button.
- To include additional attachments with this submission, repeat these steps. Indicate the type of file to be attached from the *Files of type* drop-down list.

Attach Files to Project: File details

- After files are attached, select and highlight any filename in the *Contents of submission package* listing to view the details of that file, as shown in the *Selected document details* field. The *Selected document details* field shows the file name including the path, file date, file size, and file details for some file types.
- To remove a file, highlight the file in the *Contents of submission package* listing and select the *Remove* button.
- To view a file, highlight the file in the *Contents of submission package* listing and select the *View* button.

#### Viewing and printing files

- Highlight a file from the *Contents of submission package* listing and select the *View* button. This will launch a browser where the file is displayed using the USPTO stylesheet.
- Print the file by right clicking in the browser and selecting *Print* or by using the keyboard shortcut Ctrl + P.

- Files may also be viewed and printed by selecting the *Preview* option from the Forms tree and selecting the *Print* icon, by selecting the *Print* option from the *File* menu, or by using the keyboard shortcut Ctrl + P.
- Preview the transmittal by selecting *Print Preview* from the *File* menu.

# Converting PASAT generated specification documents to the international standard for electronic filing

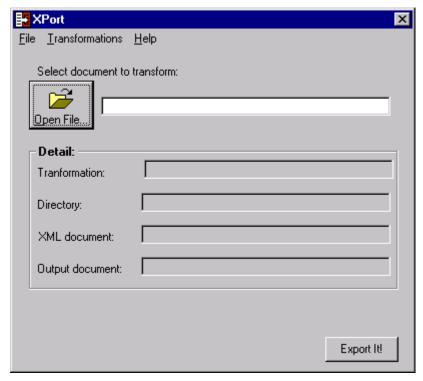

When attempting to attach a specification produced by PASAT, ePAVE will return an error message indicating that the specification is not in accordance with the international filing standard.

A message indicating the selected file is not in international format

- When this message is received use the **XPort** program to convert the file to international filing format. Select *OK* to return to the *Attach files to Project* screen.
- On the *Attach files to Project* screen select the *Transform XML Document* button. This will launch **XPort**.

The XPort transformation screen

- In the **XPort** select the *Open File* button and select the file to be transformed. This will be the file that returned the error message when attaching was attempted.
- Select the transformation type by selecting *Transformations* from the menu and selecting *US* and *Specification* from the drop down list.
- Select *EXPORT IT!* to convert the PASAT file to an application body XML in accordance with international standards.

Note: The transformed file will be saved to the same directory as the opened file and will include the characters –trans after the original file's name. For example, an original document called ABC123.xml will produce a transformed document called ABC123-trans.xml.

• XPort will renumber the paragraphs in the transformed file in sequence and will indicate this to the user.

#### The Conversion complete message box

Upon successful transformation, the user will have the option of viewing the converted specification.

The transformation complete dialogue box

- Select **Yes** to view the converted document.
- Select *No* to view the converted document later.

If **Yes** is selected, the converted document will be displayed with the USPTO stylesheet for international specifications.

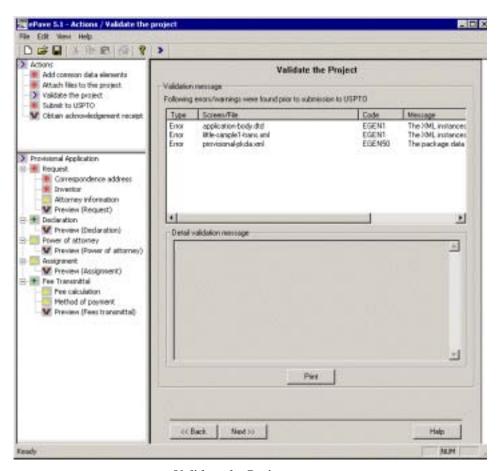

A preview of the transformed specification

- Attach the transformed specification to the submission package using the *Attach* button in the ePAVE *Attach Files to Project* screen.
- Select the *Back* button to return to the *Method of Payment* screen. Select the *Next* button to proceed to the *Validate the Project* screen. Select the *Help* button for information about the screen.

#### Validate the Project screen

Validate the Project screen

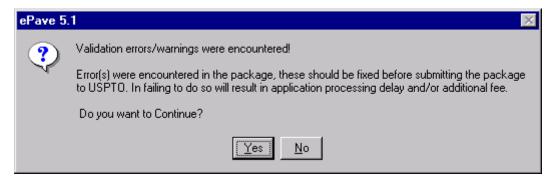

The *Validate the Project* screen validates the submission to identify any errors before the submission to the USPTO.

- Verify that an Internet connection is in place. An Internet connection must be in place for validation to occur.
- Validate the submission at any time by selecting the *Validate the Project* from the *Actions tree*.
- View details of any validation errors or warnings by highlighting the error or warning in the *Validation message* listing. The Details will appear in the *Detail validation message* box.

- Select the *Print* button to print a list of current. This will launch a dialogue box requesting permission to print the errors. Select *Yes* to print a listing of all errors and warnings and details of the errors. Select *Cancel* to return to the *Validate the Project* screen.
- Correct the error by following the suggestion listed in the *Detail validation message* field.
- Repeat these steps to correct all errors.
- Select the *Back* button to return to the *Attach Files to Project* screen. Select the *Next* button to proceed to the *Submit to USPTO* screen.

If errors or warning are encountered upon proceeding, a dialogue box will be displayed indicating that errors/warnings have been encountered.

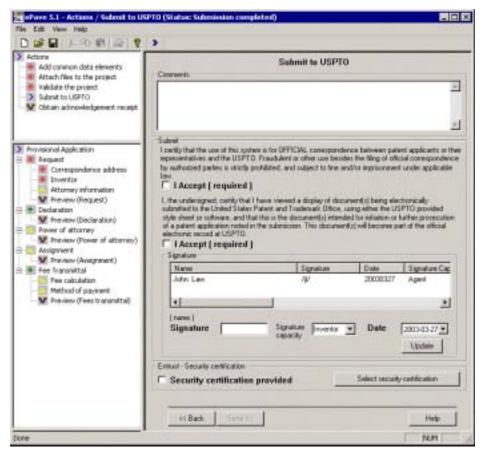

Validation error prompt

Select Yes to proceed to the Submit to USPTO screen. Select No to return to the Validate the Project screen and correct the errors. Select the Help button for information about the screen.

#### Submit to USPTO Screen

Submit to USPTO screen

- Proceed to the *Submit to USPTO* screen only after fully entering required and optional data in the previous screens, validating the submission, and correcting any errors.
- Enter any comments to be included with the application in the *Comments* data entry box.
- Preview the transmittal by selecting *Print Preview* from the *File* menu.

#### Required fields and data entry

- Select the two *I accept (required)* check boxes to indicate that the filers who have signed this submission have reviewed it and can attest to its completeness.
- Select a particular filer from the *Signature* list.
- The filer must enter a mark that the filer intends to be an electronic signature in the *Signature* field. REQUIRED.

**Note:** This signature is an electronic legal signature. The individual named MUST add a signature.

• Enter the signature capacity of the filer Signature capacity – Enter the signature capacity of the filer. Or, select the signature capacity from the drop-down menu. OPTIONAL.

**Date** – Enter the date that the submission is being signed. Or, select the date from the drop-down menu, which converts into a calendar. REQUIRED.

- Select the *Update* button to update the information.
- Repeat for each filer.
- Select the *Select security certification* button to indicate which certificate will be used to make this submission. Both the low level and the high level PKI certificates will establish a secure, encrypted session with the USPTO server for making the submission.

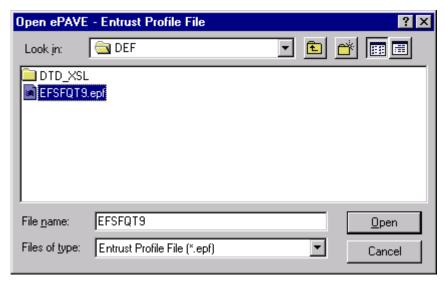

#### **Security Certification Screen**

USPTO ePave - Security Certification
In accordance with applicable provisions of PCT Administrative Instructions Part 7, as applied to national and international applications, applicant has the option of filing this provisional or non-provisional application using the built-in "low level" security certificate or the USPTO issued "high level" security certificate.
Low level security certificates require only a verifiable e-mail address of the person submitting the application; however, they may be used only for application submissions, and may not be used for subsequent transactions as they do not provide sufficient authenticity.
High level certificates are preferred for all filings and required for subsequent filings.
Low level security certificate
Email address
High level security certificate
Entrust profile file C:\WINNT\Profiles\efstest1\Desktop\ce Password
Cancel Next>> Help

Security Certification screen

- To make the submission using the built-in low level PKI certificate, select the *Low-level security certificate* check box.
- Enter your e-mail address in the *Email address* data field.
- To make the submission using the USPTO issued high level PKI certificate enter the path and name of the Entrust profile in the Entrust profile file data box.
- Browse to the file location using the button labeled ....

Entrust Profile File look-up

- Select the Entrust profile file and select the *Open* button or double-click on the profile file.
- Enter the user created Entrust password in the *Password* field.
- Select the *Close* button to return to the *Submit to USPTO* screen after selecting the desired certificate.

Upon returning to the **Submit to USPTO** screen, the **Send** button will be available.

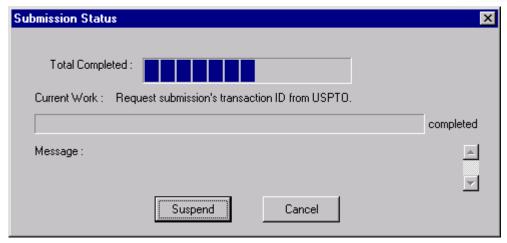

- Select the **Send** button to file the submission to the USPTO server.
- Select the *Back* button to return to the *Validate the Project* screen. Select the *Help* button for information about the screen.

#### Sending a package to the USPTO

During the submission process, submission status windows are displayed. (Examples appear below.)

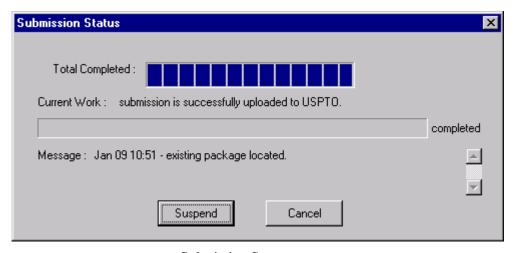

The first status window indicates the progress of the submission, the stage the submission has reached, and any messages from the USPTO server.

Submission Status message

When submission is complete, another status window indicates that the submission was successfully uploaded to the USPTO.

Submission Status message

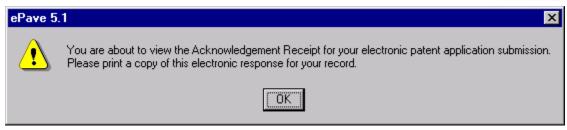

• Select the *Suspend* button on the status window to pause the submission process. Select the *Cancel* button to end the submission process.

### **Obtain Acknowledgment Receipt Screen**

When the submission is complete, the USPTO server will return an acknowledgement receipt.

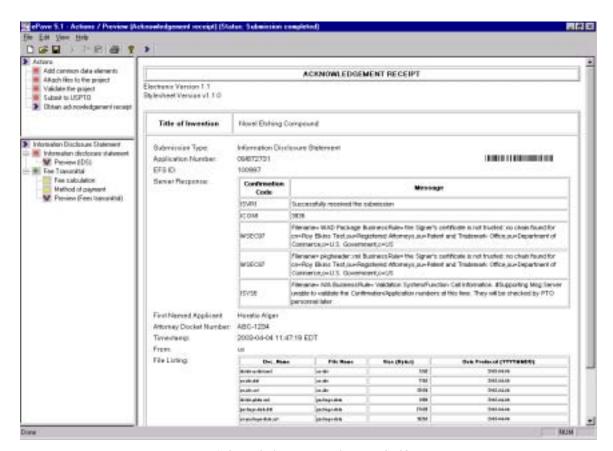

A dialogue box will be displayed indicating that the Acknowledgement Receipt is ready to be viewed.

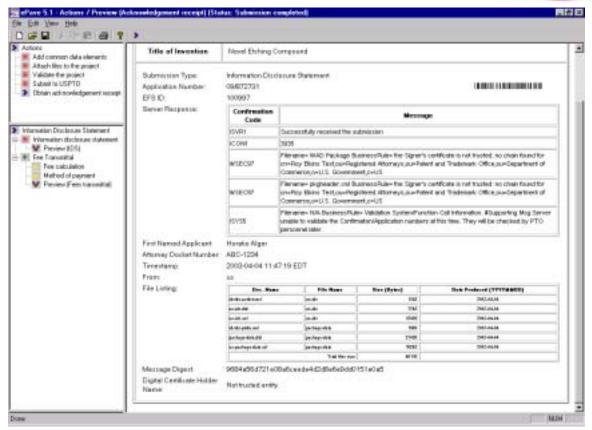

Acknowledgement Receipt notification

• Select the *OK* button to view the acknowledgement receipt.

Acknowledgment receipt: top half

Acknowledgment receipt: bottom half

• Print the acknowledgement receipt by selecting *Print* from the *File* menu, by selecting the *Print* icon on the toolbar, or by using the keyboard shortcut Ctrl + P.

After the package has been transmitted successfully, the USPTO server dates and timestamps the package and uses digital signature technology to verify that the contents of the package have not been altered during transit.

The USPTO server also returns certain information to ePAVE that ePAVE then uses to create the acknowledgement receipt. The acknowledgement receipt will include the application number, confirmation number, a unique EFS transaction ID and the date and time when the USPTO received the submission.

The acknowledgment receipt is returned in real time. It is automatically saved in the same folder as the rest of the submission. The acknowledgment receipt should be printed.

More information about the acknowledgment receipt is available at the EFS Legal Framework, located at the patent Electronic Business Center web site, USPTO.gov/ebc.

For provisional patent applications, the acknowledgment receipt establishes the date of filing but does not does not grant an official filing date. An official filing date can only be determined once USPTO Office of Initial Patent Examination has completed formalities reviews. A filing receipt will be mailed when the formalities reviews are complete.

The *Acknowledgement Receipt* contains the following information.

*Title of Invention* – This field displays the title of the invention contained in this submission.

**Submission type** - This field shows the type of submission that was received by the USPTO.

*Application Number* - This field shows the application number that was returned to ePAVE from the EFS server after successful submission of a patent application filing.

**EFS ID** – This field shows the ID of the EFS server for this submission.

**Server Response** – These fields display messages being sent from the USPTO EFS server. These messages indicate whether the submission was successful and provide warnings or errors detected by the EFS server.

*ICON1* – This is the USPTO assigned confirmation number.

*First Named Applicant* - This field shows the name of the first named inventor entered in the *Add Common Data Elements* screen.

Attorney Docket Number – This field shows the attorney docket number entered on the Add Common Data Elements screen.

**Timestamp** – This field shows the date and time that the submission was received at the USPTO.

*From* – This field shows that this submission was for U.S. practice.

*File Listing* - This field shows an itemized listing of all files that were included in the submission package that was sent to the USPTO. It includes the file size, date produced, and the total submission size.

*Message Digest* –This field shows a message that is unique to this submission. This digest serves as proof of what was submitted should any question arise in the future.

**Digital Certificate Holder Name** – This field shows the name of the digital certificate that was used to establish the secure connection with the USPTO server.

## **Exit ePAVE or Begin Another Submission**

- Exit ePAVE by selecting *Exit* from the *File* menu or by selecting the X icon in the upper right-hand corner of the screen.
- Begin a new submission by selecting *New* from the *File* menu, by selecting the *New* icon from the toolbar, or by using the keyboard shortcut Ctrl+N.
- Open another submission under construction by selecting *Open* from the *File* menu, by selecting the *Open* icon from the toolbar, or by using the keyboard shortcut Ctrl+O.
